

Description

- Delivered in a PVC transport case, with a wood blade (wood, laminate, panels) mounted diam. 165 mm, 20mm bore - 24 teeth.

Characteristics

Model	Max. cutting height	Noise level
SDP-1300	35 mm	95 dbA
Power	Speed	Rotation speed
1300 W	5 000 rpm	5 000 rpm
Voltage	Min. cutting height	Cutting depth
230 V	8 mm	0 - 47 mm
Blade diameter	Teeth	Plug-Socket
165 mm	24 teeth, tungsten carbide	Schuko
Weight per unit	Customs code	EAN code
5.6	8467229000	3486010935452

Use

- Machine specially designed for cutting (without removal) door bottoms, door frames, wooden skirting boards and panelling.
This machine, equipped with a powerful motor, does away with the need for time-consuming and tedious preparation work when laying parquet, laminate and LVT floors and other floor coverings.
