

## Landscaper Pro®

### Sun & Shade Southern Europe (SE)

 The light in the shade

#### Description

Sun& Shade SE is a tall fescue/fine fescue based blend designed for shady areas where there's little sunlight. The mixture includes grass varieties selected for deep rooting for enhanced drought and shade tolerance. Includes Hybrid Kentucky bluegrass and red fescue for improved shade tolerance. Performs equally well without shade. Available Pack Sizes – 5kg and 10kg

#### Mixture

70% Festuca arundinacea

20% Festuca rubra rubra

10% Hybrid Poa pratensis

#### Benefits

 Designed for shady areas where there's little sunlight

 Includes grass varieties selected for deep rooting for enhanced drought and shade tolerance

\\ Includes Kentucky bluegrass and red fescue for improved shade tolerance

\\ Performs equally well without shade

## Sowing Rate

35-50 grams/m<sup>2</sup>

## How to use

- 1 Recommended mowing height: from 25-50 mm.
- 2 Recommended fertilizer type: all granules.
- 3 If you need more information, please contact your technical support.

## Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
