## Overview

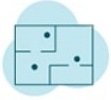

---

- \* Deco uses a system of units to achieve seamless whole-home Wi-Fi coverage — eliminate weak signal areas once and for all!
- \* With advanced Deco Mesh Technology, units work together to form one unified whole-home network with the same network name. Devices automatically switch between Decos as you move through your home for the fastest possible speeds.
- \* A Deco M5 delivers Wi-Fi to an area of up to 2,000 square feet. And if that's not enough, simply add more Decos to the network anytime to increase coverage.
- \* Deco M5 provides fast and stable connections with speeds of up to 1267Mbps and works with any internet service provider (ISP) and modem.
- \* Deco can handle traffic from even the busiest of networks, providing lag-free connections for over 100 devices.
- \* TP-Link HomeCare™ provides a suite of personalized and secure features, including Parental Controls, built-in Antivirus and Quality of Service (QoS).
- \* Setup is easier than ever with the Deco app there to walk you through every step.

## EXPERIENCE WIFI LIKE NEVER BEFORE

Deco M5 uses new technology to cover your entire home in powerful WiFi. With multiple units working together seamlessly, Deco M5 creates a home network like nothing you've ever experienced.

### No More Dead Zones

Deco M5 delivers WiFi up to 5,500 sq. ft. to cover homes of all sizes and shapes, from the corner bedroom to the backyard.\*

### High-Speed WiFi

Every Deco unit acts like a router to keep your Wi-Fi running fast, and a Deco M5 system can keep 100-plus devices connected at once.\*

### One Network, One Name

With Deco M5, you can walk from room to room with your smartphone or tablet and stay connected on a single Wi-Fi network.†

## A MORE SECURE WIFI SYSTEM

Deco M5 protects your personal data and every connected device from online threats like viruses and malware. The system also makes it easy to customize WiFi access for guests and family.

Advanced  
WPA2 Security

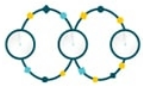

Antivirus Powered  
by HomeCare\*\*

Robust Family  
WiFi Controls

## WIFI MADE EASY

### Hands-Off WiFi

Deco M5 adjusts automatically to give you the best connections when you add devices or walk around the house.

### App-Based Setup

Set up in minutes through the Deco app, and never fear—Deco M5 works with any modem or ISP.

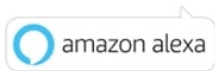

### Voice Control

When paired with Alexa, you can control Deco M5 with simple voice commands.

### Easy Management

In just a few taps, monitor and manage your WiFi settings at home or away with the Deco app.
