Doit en appui
Uña en apoyo

3 point - no run out

UNIVERSAL

> 890-1290 mm (35"-50")

NO RUN OUT
High accuracy
15-20 min faster

STDA92

Coppia di griffe autocarro speciali per evitare la compensazione: agiscono sul centro della ruota che è molto preciso, garantendo ottime misurazioni senza bisogno di sollevare ogni ruota. Questo utilizzo **aumenta la precisione e fa risparmiare 15-20 minuti per veicolo.**

Set of 2 non-runout quick adapters. By referencing the wheel center which is almost perfectly accurate, we can deliver a more accurate measurement without need to raise each wheel position to perform runout compensation. This improves accuracy while saving 15-20 minutes per truck.

Satz zwei kompensationsfreie Schnellspannhalter für NFZ. Diese Halter liegen direkt auf der Radmitte, die sehr genau ist und erlauben sehr genaue Vermessungen ohne das Rad hochzuheben. Der Einsatz dieser Halter garantieren nicht nur eine **höhere Genauigkeit sondern auch eine Zeitersparnis von 15 bis 20 Minuten pro Fahrzeug.**

*Paire de griffes PL spéciaux pour éviter le dévoiement qui agissent sur le centre de la roue en garantissant une haute précision. On obtient des mesures excellentes sans soulever chaque roue. Ce dispositif **augmente la précision et apporte un gain de temps de 15 à 20 minutes par véhicule.***

Par de garras para camiones, especiales para saltar el alabeo del vehículo. Las garras actúan sobre el centro de la rueda con mucha precisión y garantizan medidas súper fiables. Con este uso **augmentamos la precisión y ahorramos el tiempo de alineado entre 15 y 20 minutos.**

Standard:

6 x 70 mm (2.75")

6 x 345 mm (13.5")

6 x 200 mm (8")
