The technical drawing shows two views of the THERMOCHEK 6000 sensor. The top view is a side profile showing a cylindrical body with a diameter of $\varnothing 42$ mm at the base and a mounting flange with a diameter of $\varnothing 22$ mm. The overall width is 98 mm and the height from the base to the top of the mounting flange is 88 mm. The bottom view is a front elevation showing the sensor's face with a grid of six measurement points. The total height of the sensor is 65.4 mm, and the distance from the base to the center of the measurement grid is 23.8 mm.
