

KL04NSB

4 Zone Extension

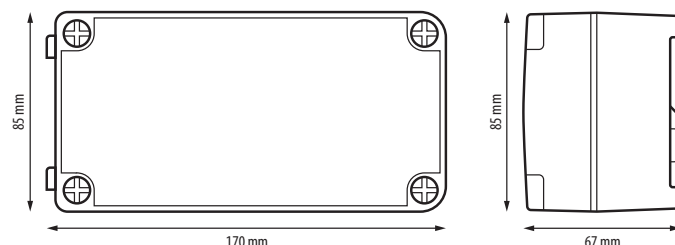

The module is an extension to the KL08NSB strip with another 4 heating zones. Increases the functionality of the combined set of up to 12 individually controlled heating zones.

Characteristics

- Can work only in combination with the KL08NSB terminal block
- 4 heating zones and 16 outputs for actuators
- Option of connecting an external clock
- Protection against cable straining
- Adapted for mounting on a 35 mm DIN rail
- Push-in cable connections with strain relief
- LED status indication
- Works with NO and NC actuators

Features

Product	4 Zone Extension
Supply	230 V
Switching current (max.)	5 A
Output	230 V
Dimensions (mm)	163 x 85 x 65
