Define Dining

a call to sustainable *harmony*

ID Fine designs porcelain with a clear purpose: to support professional dining environments through simplicity, elegance, and long-term value. Guided by our Define Dining philosophy, we believe that innovation in HoReCa should not create constant pressure for renewal or replacement. For this reason, each new collection is developed to work seamlessly with existing ranges, enabling chefs and food & beverage professionals to evolve their concepts while protecting previous investments.

This approach comes to life through Sustainable Harmony—a system that goes beyond the traditional Mix & Match concept. While combining collections is not new within the HoReCa sector, Sustainable Harmony transforms this practice into a sustainable, flexible, and long-term strategy. Designed according to timeless principles, our collections ensure continuity and compatibility across past, present, and future assortments. This allows professionals to refresh their tabletop presentations without replacing current stock, supporting creative freedom alongside operational efficiency.

Sustainable Harmony

Three Brands *one vision*

Through ID Fine, Roots by ID Fine, and 1972 by ID Fine, we offer a holistic platform that addresses diverse professional needs while remaining united under a single vision. The modular structure enables personalized presentations, strategic stock management, and adaptability across a wide range of dining concepts. Unlike Mix & Match, which focuses solely on visual composition, Sustainable Harmony integrates design intelligence, planning, creativity, and commercial performance.

The resulting system delivers value across the entire HoReCa ecosystem: more efficient stock management for distributors, greater presentation flexibility for restaurants, and the freedom for chefs to develop and sustain their own signature styles. Sustainable Harmony is more than an aesthetic choice—it is a strategic approach to professional dining, where sustainability and sophistication coexist in long-term balance.

TOI

Designed for chefs who set their own limits or deliberately choose to ignore them.

TOI is a pure, understated fine casual collection designed for chefs who define their own space. Its flat coupe form is calm and confident — reduced to what truly matters, free from visual noise.

At the center, a naturally formed, gently recessed area appears. There is no sharp rim, no defined line. This subtle depth creates an intuitive working zone: composition remains controlled, yet the plate never imposes strict boundaries. It supports the chef without dictating the outcome.

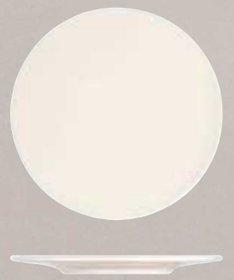

Toi means "you" in French. It speaks directly to the chef, placing them at the center of the plate. The plate becomes a quiet dialogue between the chef and the guest — a natural extension of ID Fine's Define Dining philosophy.

A considered choice for fine casual restaurants, banqueting, and catering environments where elegance and consistency matter, TOI offers a balanced platform for confident, personal expression.

MODEST

Modest collection is defined by its timeless design and understated simplicity, making it the perfect choice for any occasion.

What sets Modest apart from other tableware collections is its hand-painted rims in rich brown, maroon, deep navy blue, black and warm green. These rims frame the food, drawing the eye and creating a beautiful visual contrast. The hand-painting process adds a touch of human warmth and artistry to each piece, making them truly one-of-a-kind.

At ID Fine, we believe in the importance of preserving traditional techniques like hand-painting. It adds depth and character to our tableware and helps to define the dining experience for our customers.

In a world that often feels rushed and impersonal, we appreciate the human touch and the timeless beauty of a well-crafted, hand-painted piece. That's why we are proud to offer the Modest collection, a simple yet elegant way to define your dining experience.

MIZU

new

In Japanese culture, "Mizu" — water — symbolizes the flow of life, renewal, and continuity. The concentric ripples evoke the gentle waves on the water's surface, while delicate sakura patterns recall nature's fleeting yet graceful beauty. Every detail embodies the essence of the Japanese wabi-sabi philosophy — celebrating the beauty of imperfection — translated into the refined aesthetic of modern gastronomy. Mizu brings a sense of quiet poetry to chefs' presentations and a meditative balance to the dining table.

PIETRA

Pietra draws inspiration from the mosaic heritage of Mesopotamia, bringing traces of the past into a contemporary aesthetic. At the core of this heritage lies a mosaic approach that emphasizes the strength of a unified whole formed through the harmony of diverse elements. Reflecting the same philosophy, the olive branch symbolizes peace, abundance, and enlightenment. Together, these elements allow Pietra to interpret its connection to the past through a refined, strong, and timeless design language.

SCORIA

Scoria is inspired by one of nature's most powerful transformations: the moment fire becomes earth. Traces left by flowing lava evolve into a calm yet profound expression across the surface of the collection. The balance between charred dark tones and warm earthy hues creates a natural contrast, while subtle textures and transitions add a layered character shaped by time and nature. The matte surface gives Scoria a refined yet strong presence, allowing it to integrate seamlessly with different presentations and collections. A subtle framing detail draws the focus toward the center, bringing balance and cohesion to the design. Scoria interprets the raw power of nature through a restrained, understated aesthetic—quiet, strong, and timeless.

It represents a narrative that brings together the traditional motifs of Eastern culture with a modern aesthetic, creating a deliberate connection between past and present. Inspired by rug and carpet patterns, the design language establishes a balanced and timeless rhythm across the surface. Each detail offers a refined yet powerful interpretation that carries cultural memory into contemporary dining settings. This approach makes the collection versatile and well-suited for both traditional and modern presentations.

Use & Care Guidelines

- **Stacking & Storage**
  Improper stacking may cause surface scratches.
  Store items **vertically**, not flat.
  Only products designed for stacking should be stacked.

- **Heat & Temperature Use**
  All white and colored porcelain products are suitable for use in **oven, microwave, and freezer** under normal conditions.
  Products must **not** be used directly on open flame.

  Avoid sudden temperature changes.
  Do not transfer products **directly from freezer to oven** or **from oven to freezer.**

- **Dishwasher Use & Cleaning**
  Porcelain products are suitable for dishwasher use. Follow the dishwasher manufacturer's instructions for detergent dosage and program selection. Do not use abrasive materials, metal tools, or harsh cleaners.

- **Surface Marks**
  Grey marks may occur due to metal transfer. They are not scratches and can be removed with mild cleaners.
  Scratch-resistant products maintain surface integrity under normal professional use.

- **Edge Durability**
  Products **marked with the edge-strength icon** are designed with enhanced edge durability for professional use.
  Despite this reinforcement, edge chips may still occur due to impact or improper handling during use or storage.
