BRITISH DESIGN AND CRAFTSMANSHIP

Since 1993, William Edwards has specialised in the design and manufacture of fine bone china for luxury hospitality brands worldwide.

A beautiful blend of modern luxury and unparalleled quality is underpinned by a passion for shape, design, and British craftsmanship. Using only the finest long-established materials and techniques, each piece is expertly designed in Stoke-on-Trent, the heartland of England's ceramics industry.

Acclaimed for our proficiencies in creative design, exemplary interpersonal service, and prompt delivery, our distinguished portfolio of esteemed clientele allows us to continuously challenge the frontiers of bespoke design and establish novel benchmarks in luxury tableware.

SIGNATURE COLLECTION

The William Edwards Signature Collections have been created to enhance the tableware experience within your establishment, with a readily available collection of fine bone china, offering a flexible solution to all hospitality venues.

THE COMPANY WE KEEP

BONE CHINA CARE GUIDE

To help maintain the look and feel of your tableware it is important to consider the washing process. Washing temperature, detergents, and water types are key factors when caring for your product whilst also ensuring that you do not let dirt and residue build up over long periods of time. The recommendations below will help to maintain the performance of your product in service. Bone china is not freezer or oven safe unless stated.

Always wash as soon as possible after use. Before loading into the dishwasher, rinse with hot water and avoid leaving food on china for any significant length of time.

The use of scourers will lead to damage on plates, often seen by visible circular scratches. We suggest not to use a scrubbing sponge and instead rinse the plate with hot water as soon as possible.

Do not overload the dishwasher and ensure that the water temperature is in accordance with the manufacturer's recommendations. Ensure the dishwasher is regularly serviced and in good order. We strongly recommend using a rack with custom compartments to ensure that there is no impact during the washing cycle. Avoid overlapping and overloading the dishwasher.

After washing, wipe with a damp cloth (microfibre) to remove any watermarks that may occur during the washing process. If watermarks are excessive check the dosage of rinse aid.

There are many automatic dishwashing detergents available today to suit different operating conditions. It is important to select the correct one for the dishwasher as some detergents can cause corrosion and permanent damage to the tableware decoration. For any regions with hard water, it is suggested to use a hard-water detergent and rinse-aid.

To remove coffee and tea stains, or any stubborn built-up dirt use Tannin Remover powder. Mix the powder with water and place the crockery in a bath of the solution for 30 seconds. Use a soft sponge to remove stains. Do not use a scrubbing sponge as it can damage the glaze.

Using higher temperatures or overdosing on detergent will cause deterioration to the glazed finish or damage any decoration on the product. Most dishwashers have a short wash or china/crystal cycle that should be sufficient for most cleaning of china. Fine bone china is not suitable for use in the freezer

Recommended dishwasher temperature for china is 69-74°C/156-165°F and a rinse at 83°C/181°F. A wash temperature of 69°C/156°F is recognised as the most effective for removal of food soiling, with less risk of damage to the decoration. We do not recommend the use of dishwashers for product with metallic trim.

Fine bone china should not be used for cooking purposes. Do not expose it to a naked flame and avoid use in an oven. Products with gold or platinum decoration must not be used in a microwave due to the metallic content.

PRECIOUS METALS

It is important to take additional care for items incorporating precious metals such as gold, silver, and platinum. These metals have a compromised technical and durability performance compared to ceramic colours. To maximise shelf life, we recommend hand washing only and the use of a soft cloth to dry thoroughly before storage. Do not use abrasive materials when cleaning.
