ULTRACAPIL HAIR SERUM

HAIR LOSS - GROWTH - COMFORT

Ultracapil is a highly comprehensive solution for combating hair problems:

- > Massive or diffuse hair loss
- > Slow regrowth
- > Disrupted growth cycle
- > Scalp irritation, inflammation, itching

Ultracapil is a nutrition-intense product with a particularly high concentration of targeted natural active ingredients to stimulate the hair bulb and improve hair rooting while soothing sensations of scalp discomfort.

90% natural ingredients

Growth

Reactivates and prolongs the hair growth phase.

Boosts micro-circulation in the hair bulb.

Strengthens and thickens the hair fibre, providing the hair with more vigour and vitality. Reactivates the regrowth mechanism following cancer treatments.

Soya and Wheat germ Niacinamide - Onion

Hair loss prevention

Inhibits hair loss and promotes hair rooting in the bulb. Delays the change of the hair cycle to the hair loss phase.

Tripeptide GHK
Scutellaria baicalensis (Chinese skullcap)

Comfort

Soothes scalp itching caused by inflammation of the hair bulbs or by wearing a wig.

Cynanchum Atratum

HAIR SENSITISED SCALP

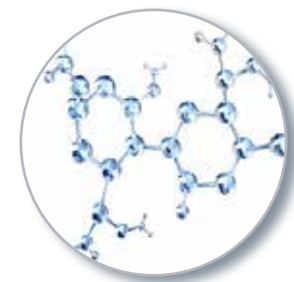

DOCETUDE0590EN - 10/22

* Clinical study conducted by the Institut Sabouraud, Hôpital Saint Louis Paris - France

EFFECTIVE HAIR LOSS PREVENTION*

Loss test (HAIR COMB TEST)*

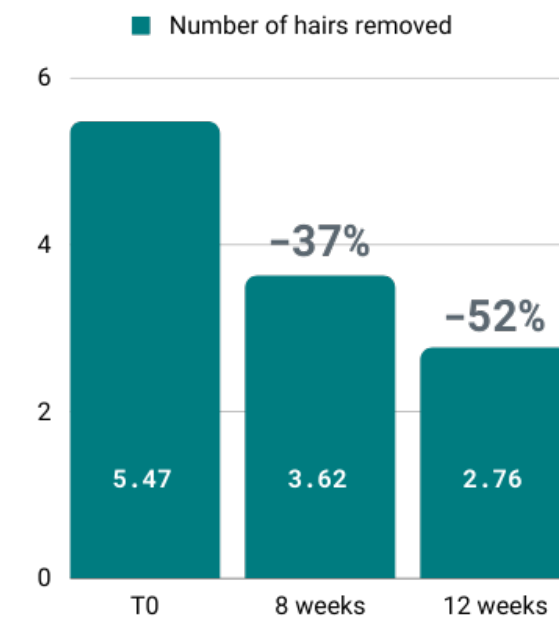

Principal: loss test after combing hair for 60 seconds

Result: 53% hair loss reduction after 12 weeks.

Traction test (PULL TEST)*

Principal: around 30 hairs are pulled between the thumb and index finger and counted.

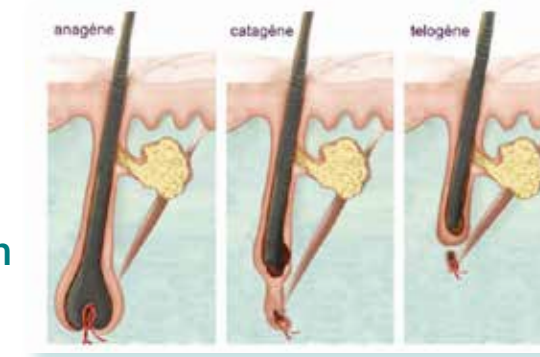

Result: 52% hair loss reduction after 12 weeks.

* Clinical study conducted at the CENTRE DE SANTÉ SABOURAUD - HÔPITAL SAINT LOUIS PARIS under the authority of Dr Pascal REYGAGNE, dermatologist, on 30 male and female volunteers developing diffuse hair loss, with Ultracapil applied every other day for 12 weeks - 2022 study.

GROWTH REACTIVATION*

The hair cycle is formed of 3 steps:

- 1 - A growing phase, called **Anagen**
- 2 - A phase where it stops growing, called **Catagen**
- 3 - A resting and hair loss phase, called **Telogen**

Evaluation of regrowth using phototrichogram measurement*

Principal: measurement of the total density and percentages of hair in the anagen and telogen phases.

ANTI-ITCHING ACTION**

91%
of volunteers

observe a sensation of comfort on application

feel that the product immediately soothes scalp irritation and itching

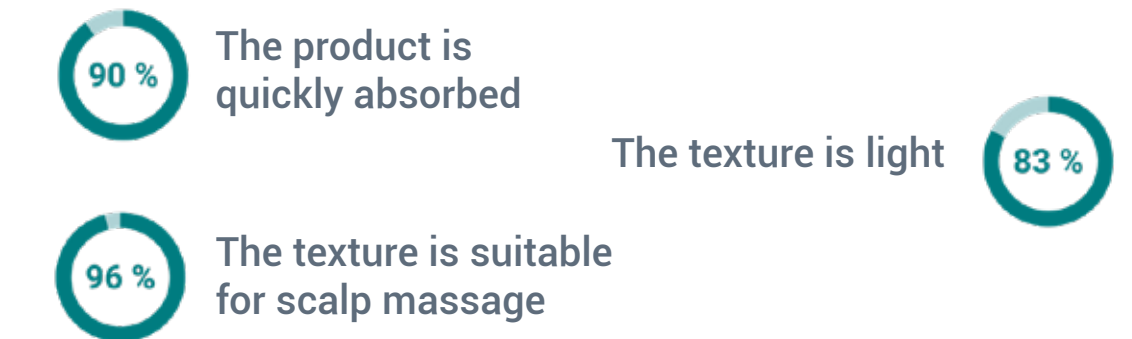

notice that sensations of scalp tightness and discomfort are reduced after 4 weeks of use

** Use test conducted under dermatological supervision on 22 volunteers (16 women and 6 men) with a sensitive, irritated scalp with itching, after applying Ultracapil every other day for 28 days. Eurofins-Evic 2021 study.

APPRAISAL OF THE EFFECTIVENESS OF ULTRACAPIL BY THE VOLUNTEERS*

ULTRACAPIL, a non-oil serum rich in natural active ingredients, for comfort on application:

The studies conducted have shown a strong appreciation of the product both for its cosmetic qualities and its effectiveness

ULTRACAPIL offers:

Effective hair loss prevention with a 50% reduction in loss after 12 weeks.

An increase in hair growth and thickness with 13,674 more hairs in 12 weeks.

An intense soothing action with a reduction in sensations of irritation and itching for 91% of irritated scalps.
