

Tropical fruity fan

tender leaf®
printables
www.tenderleaftoys.com

Make this fruity fan by printing out our melon template twice, then make 1cm folds along the two print outs. Place a wooden lolly stick in the middle of the two pieces and glue them together. Finally, wrap the base of the fan with tape or string!

Top tip!

We used colourful
washi tape to secure your fan
to the stick. Washi tape comes
in lovely, bright colours
plus it is plastic free!

Here's one we made!
