

KHS500

TECHNICAL DATA SHEET

General Description

KHS500, a “G-10” material, is manufactured from fiberglass and epoxy resin. Produced using the same processes and equipment as Norplex-Micarta’s other glass epoxy sheets, the KHS500 series of product has been optimized for use in aesthetic applications.

Why UlteXTM KHS500

- ❖ Manufactured in Postville, Iowa by a team of professionals
- ❖ UlteXTM G-10 is produced to the highest standards in the industry
- ❖ Optimized for the aesthetic applications for items such as knife handles, gun grips, inlays, and other cosmetic uses
- ❖ Offered in dozens of colors and surface finishes

Physical Properties

Rockwell Hardness	105 (M Scale)
Moisture Absorption % weight gain after 24 hours in water	0.08 (%)
Flexural Strength	67,000 (psi)
Tensile Strength	54,000 (psi)
Compressive Strength	75,000 (psi)
