SCOPUL JOCULUI

Înlăturați toate bilele de pe tablă până când rămâne numai una.

CONTINUT:

- tablă de joc
- 32 de bile

CUM SE JOACA

- Umpleți găurile cu cele 32 de bile, lăsând gaura din mijloc liberă.

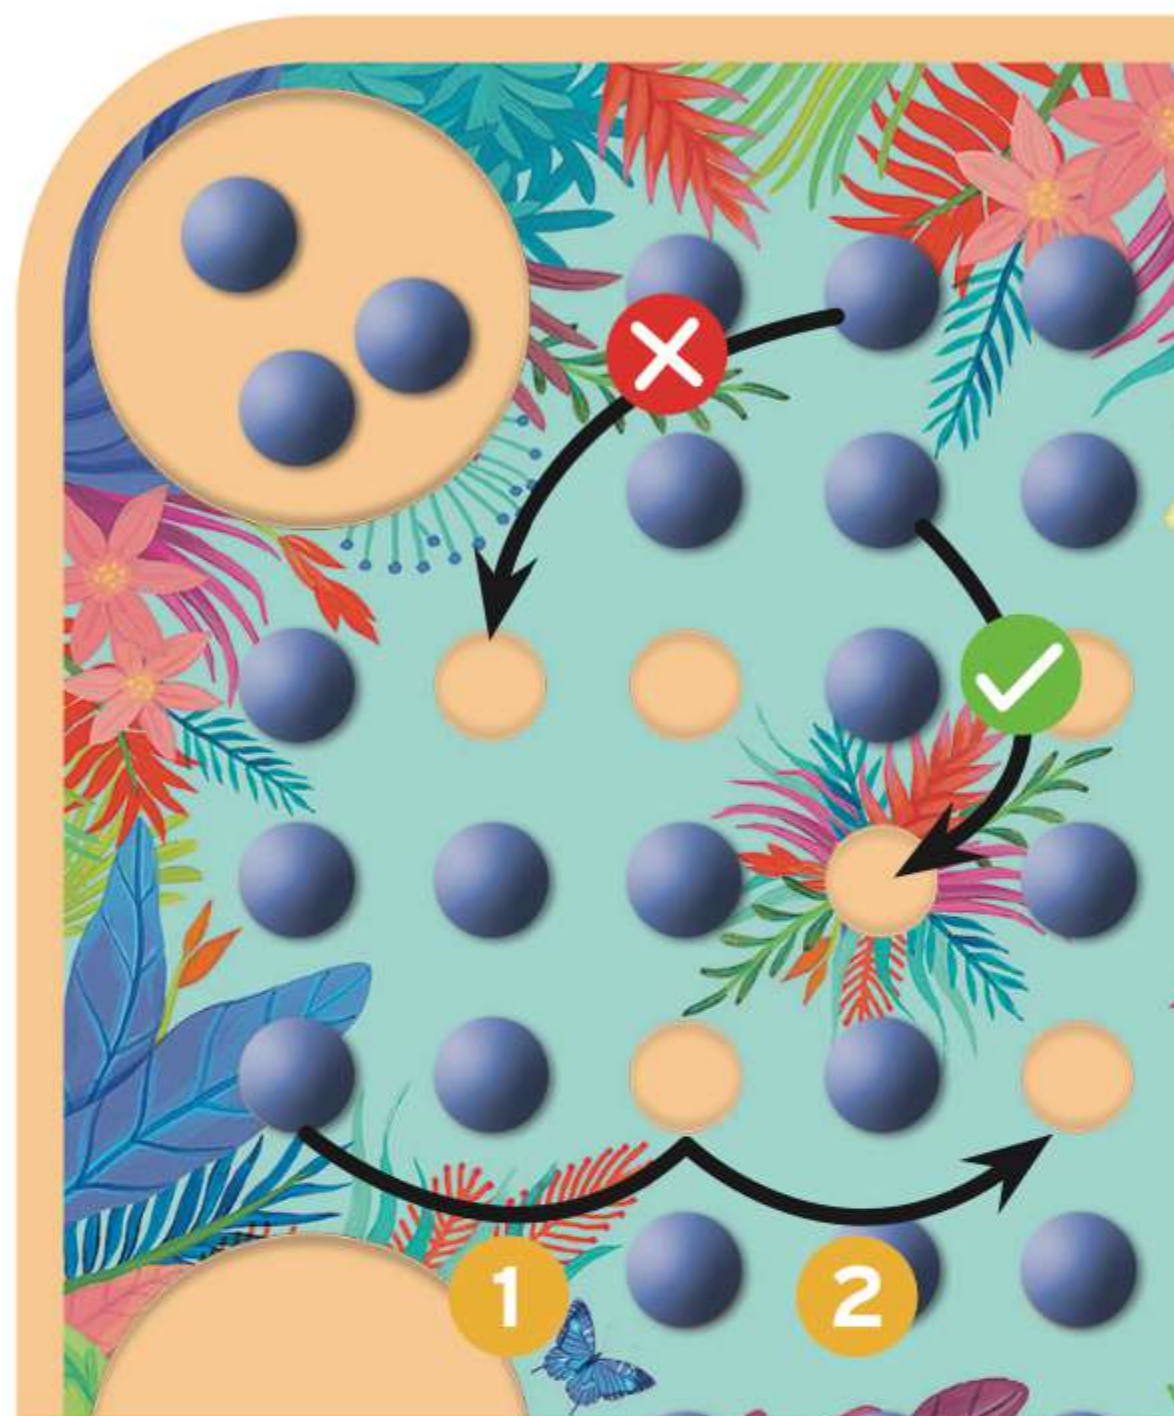

Mutați bilele una câte una, ținând cont de următoarea regulă: Bilele pot fi mutate doar acolo unde există o gaură liberă.

- ✓ Pentru a face o mutare, bila trebuie să sara peste altă bilă. Dacă gaura de după este ocupată, bila nu poate fi mutată.

- ✗ Mutările în diagonală nu sunt permise.

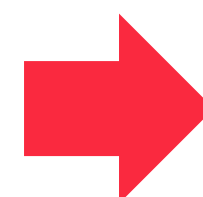

- Bila peste care s-a sărit este scoasă din joc și pusă în una dintre cele 4 colțuri ale tablei. Aceasta nu mai poate fi folosită.

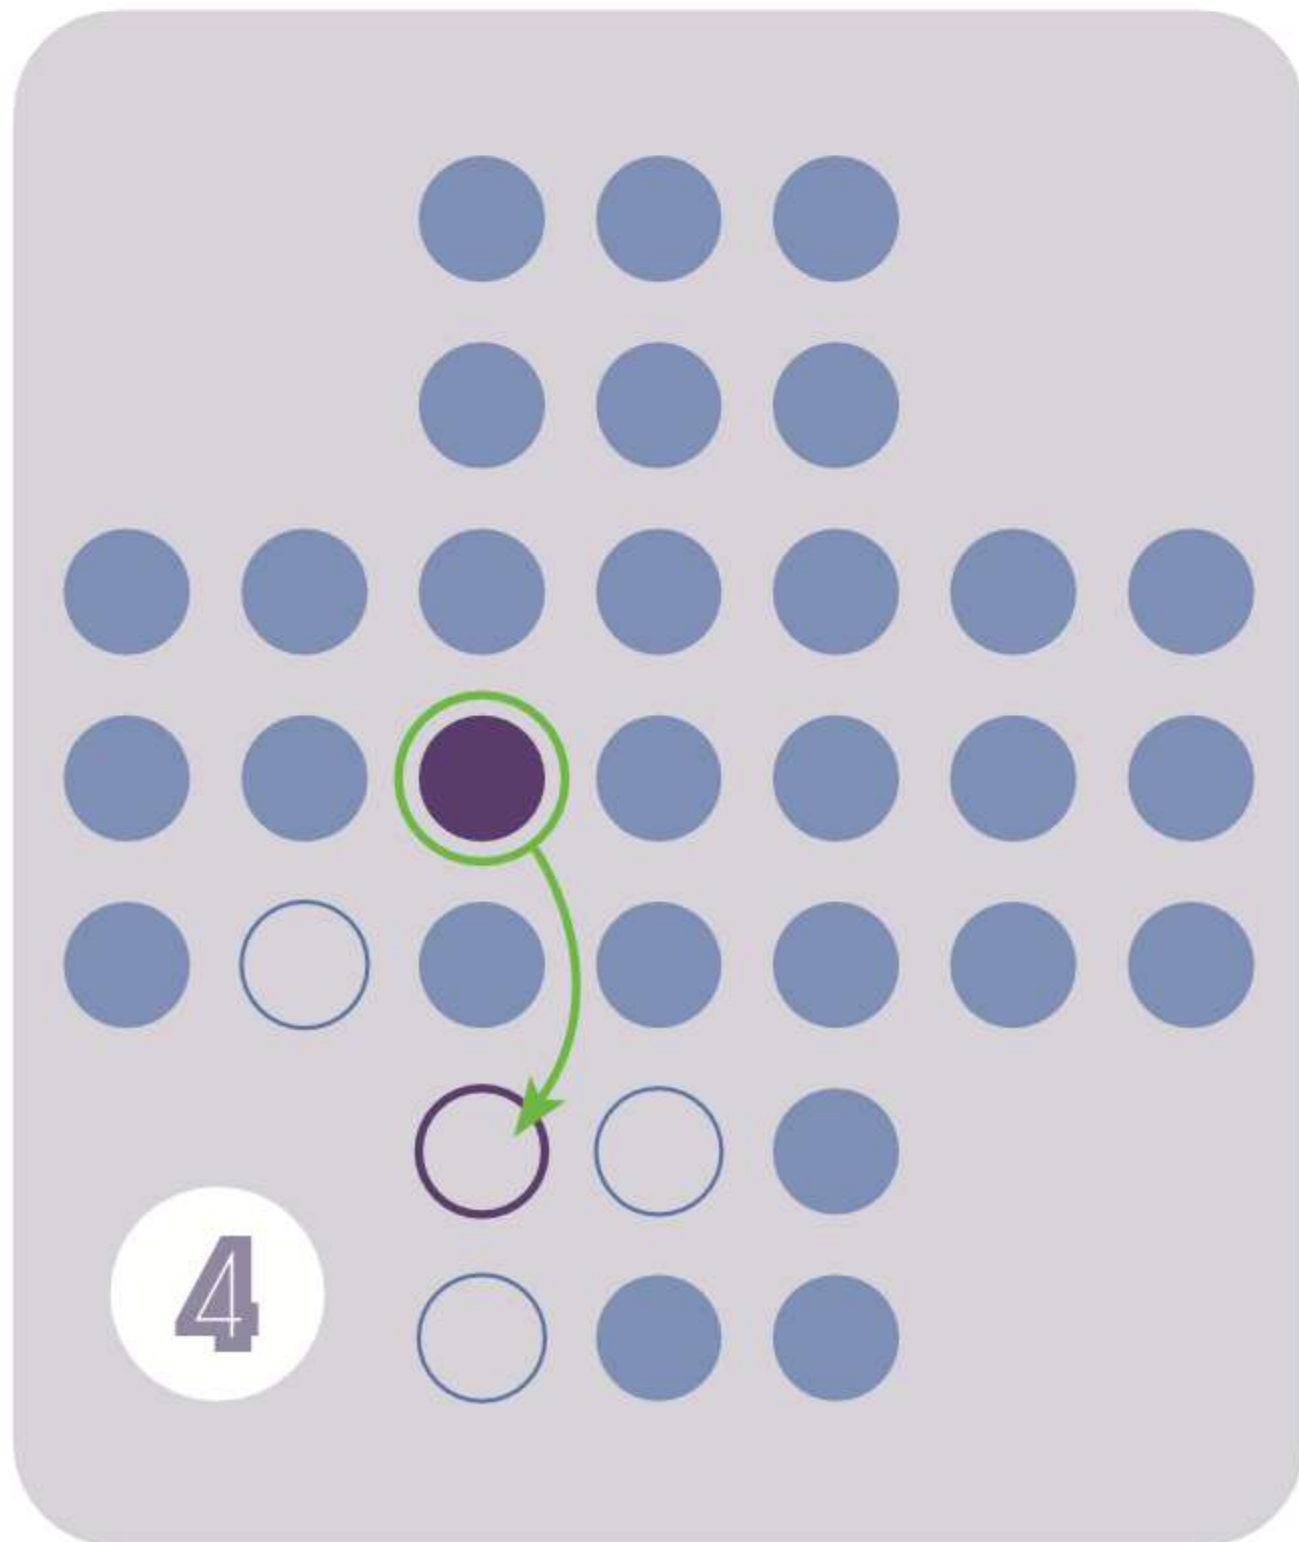

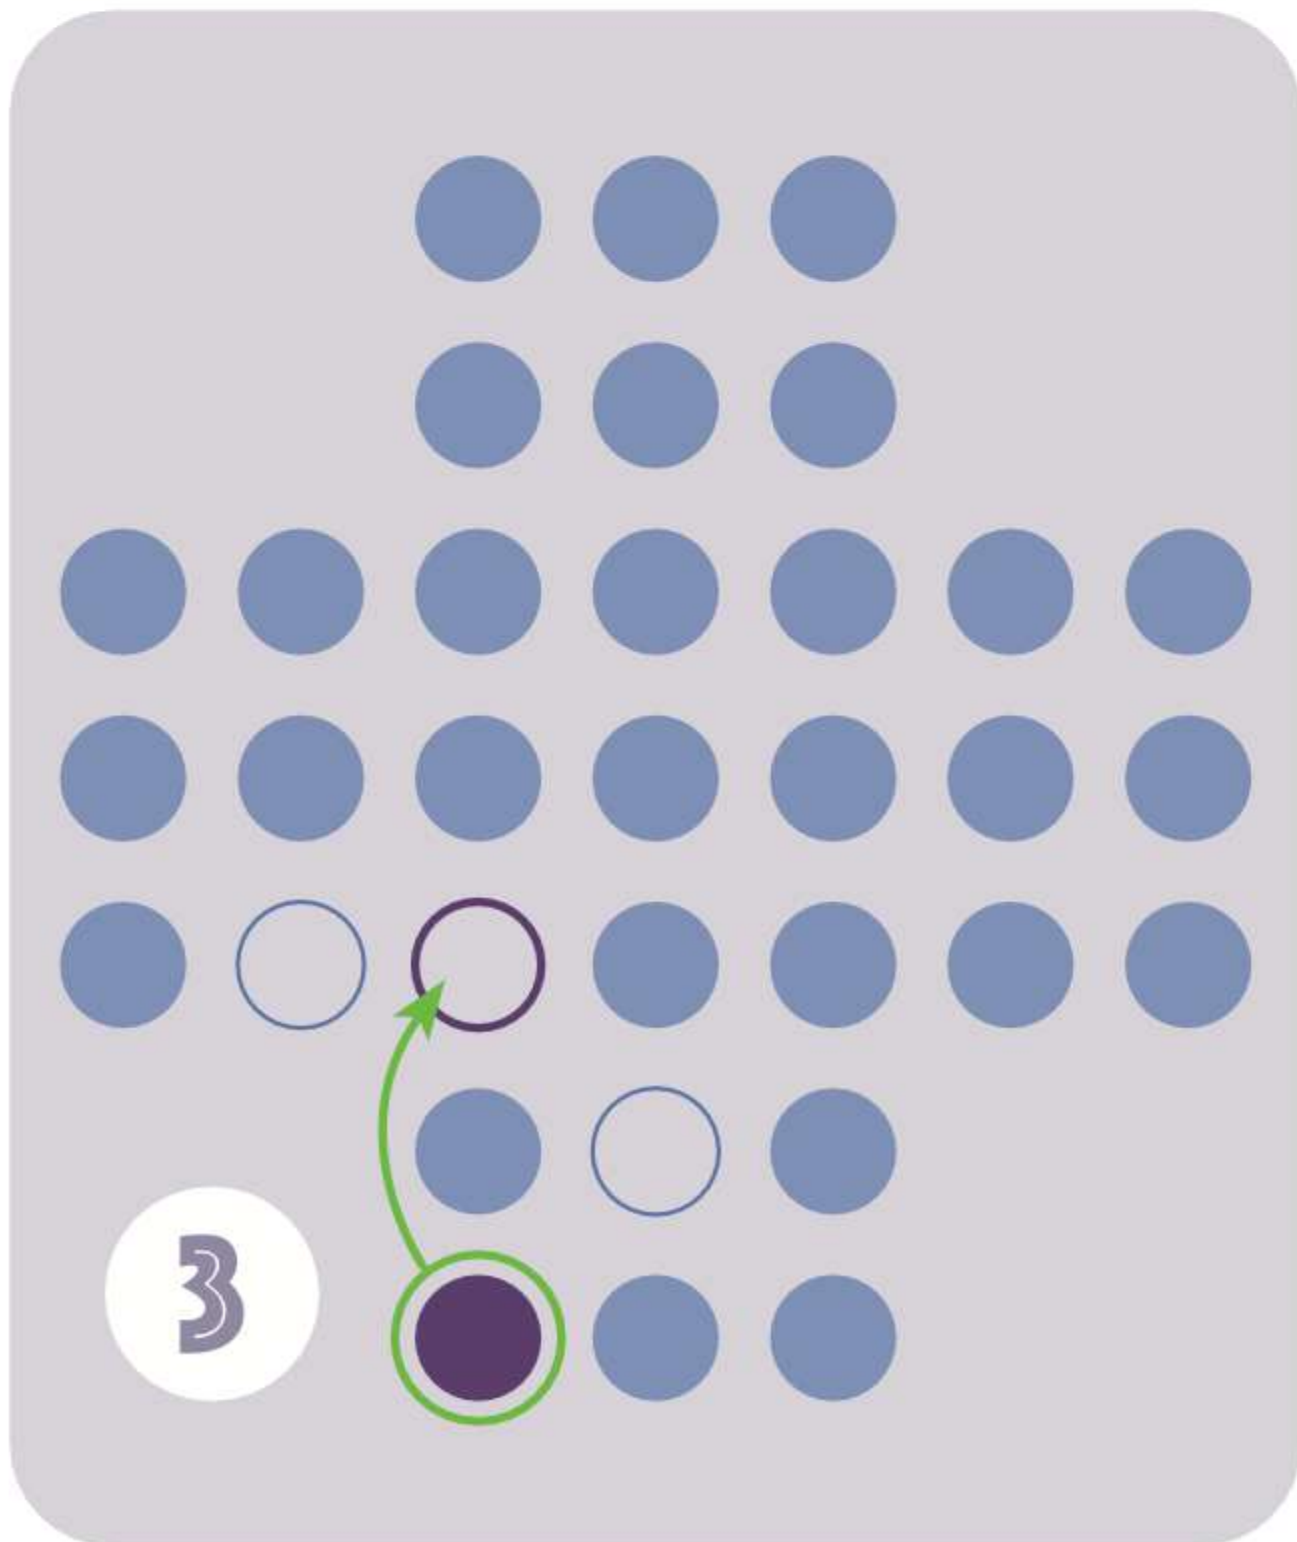

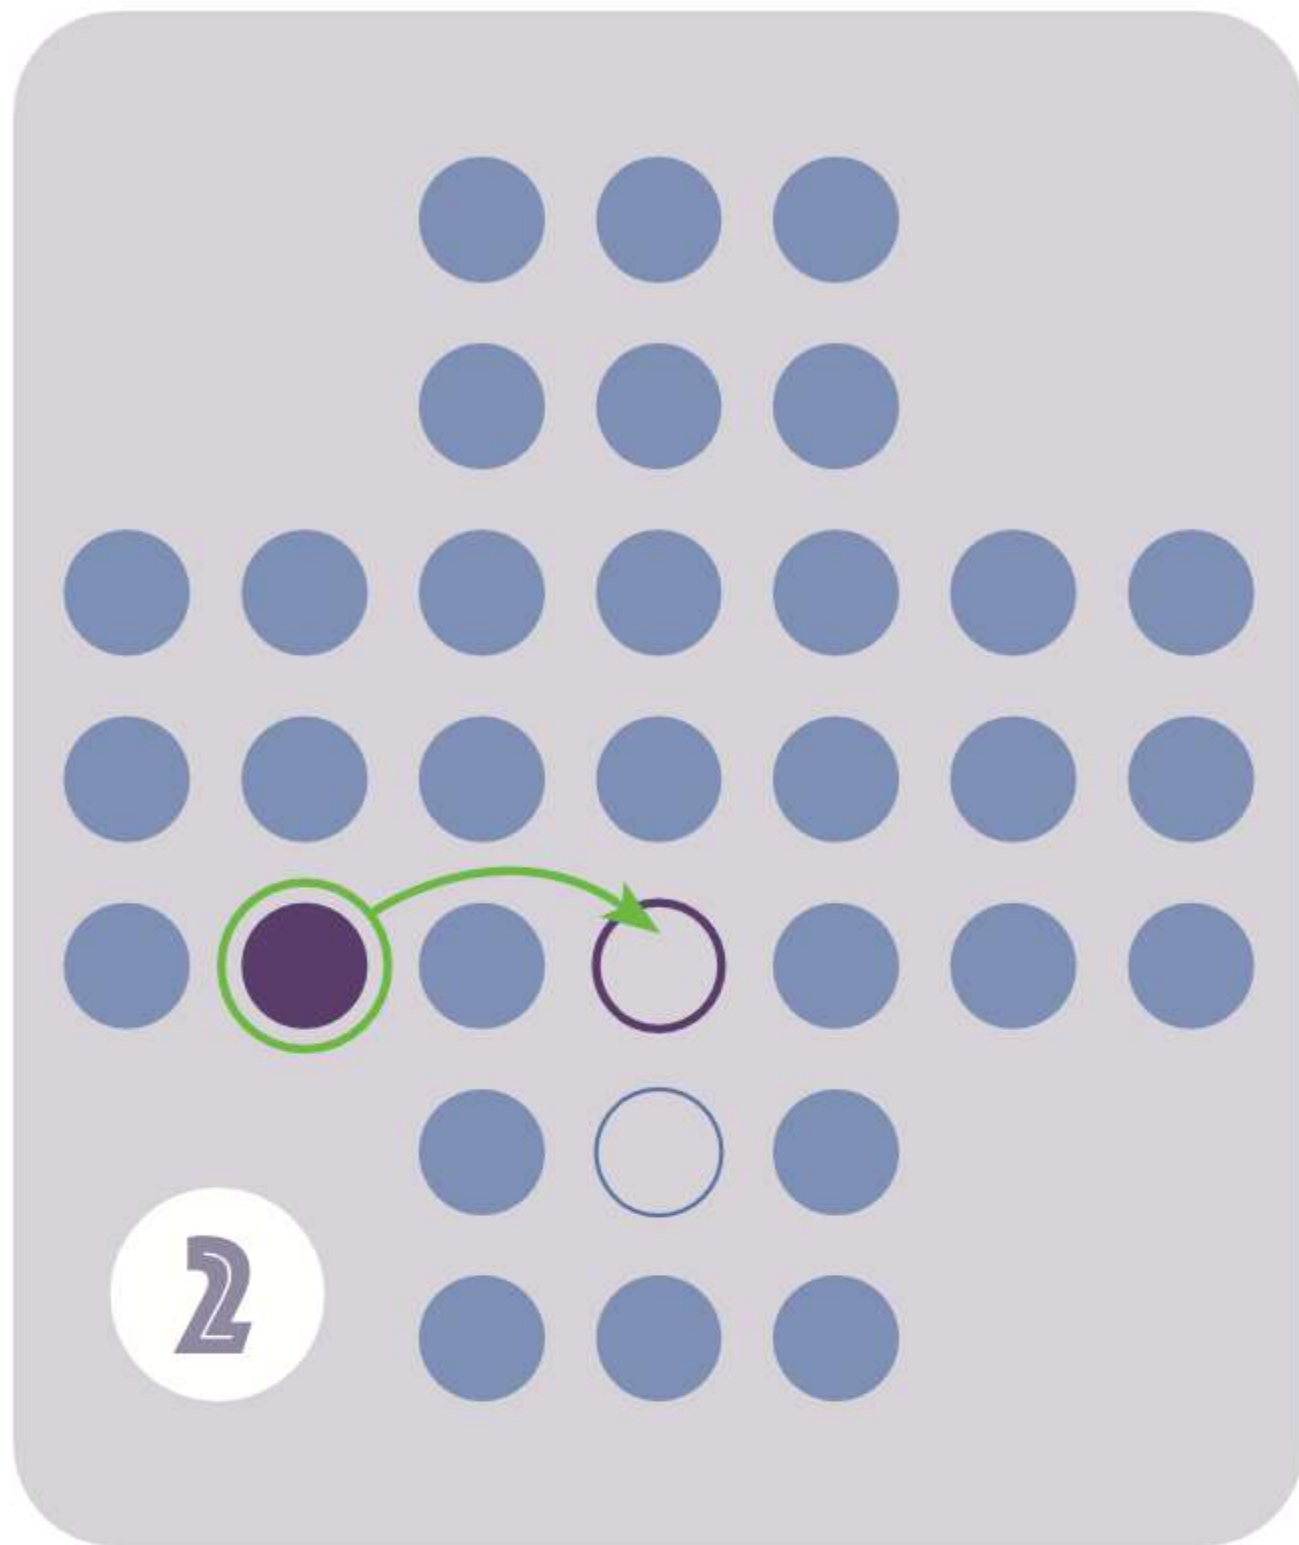

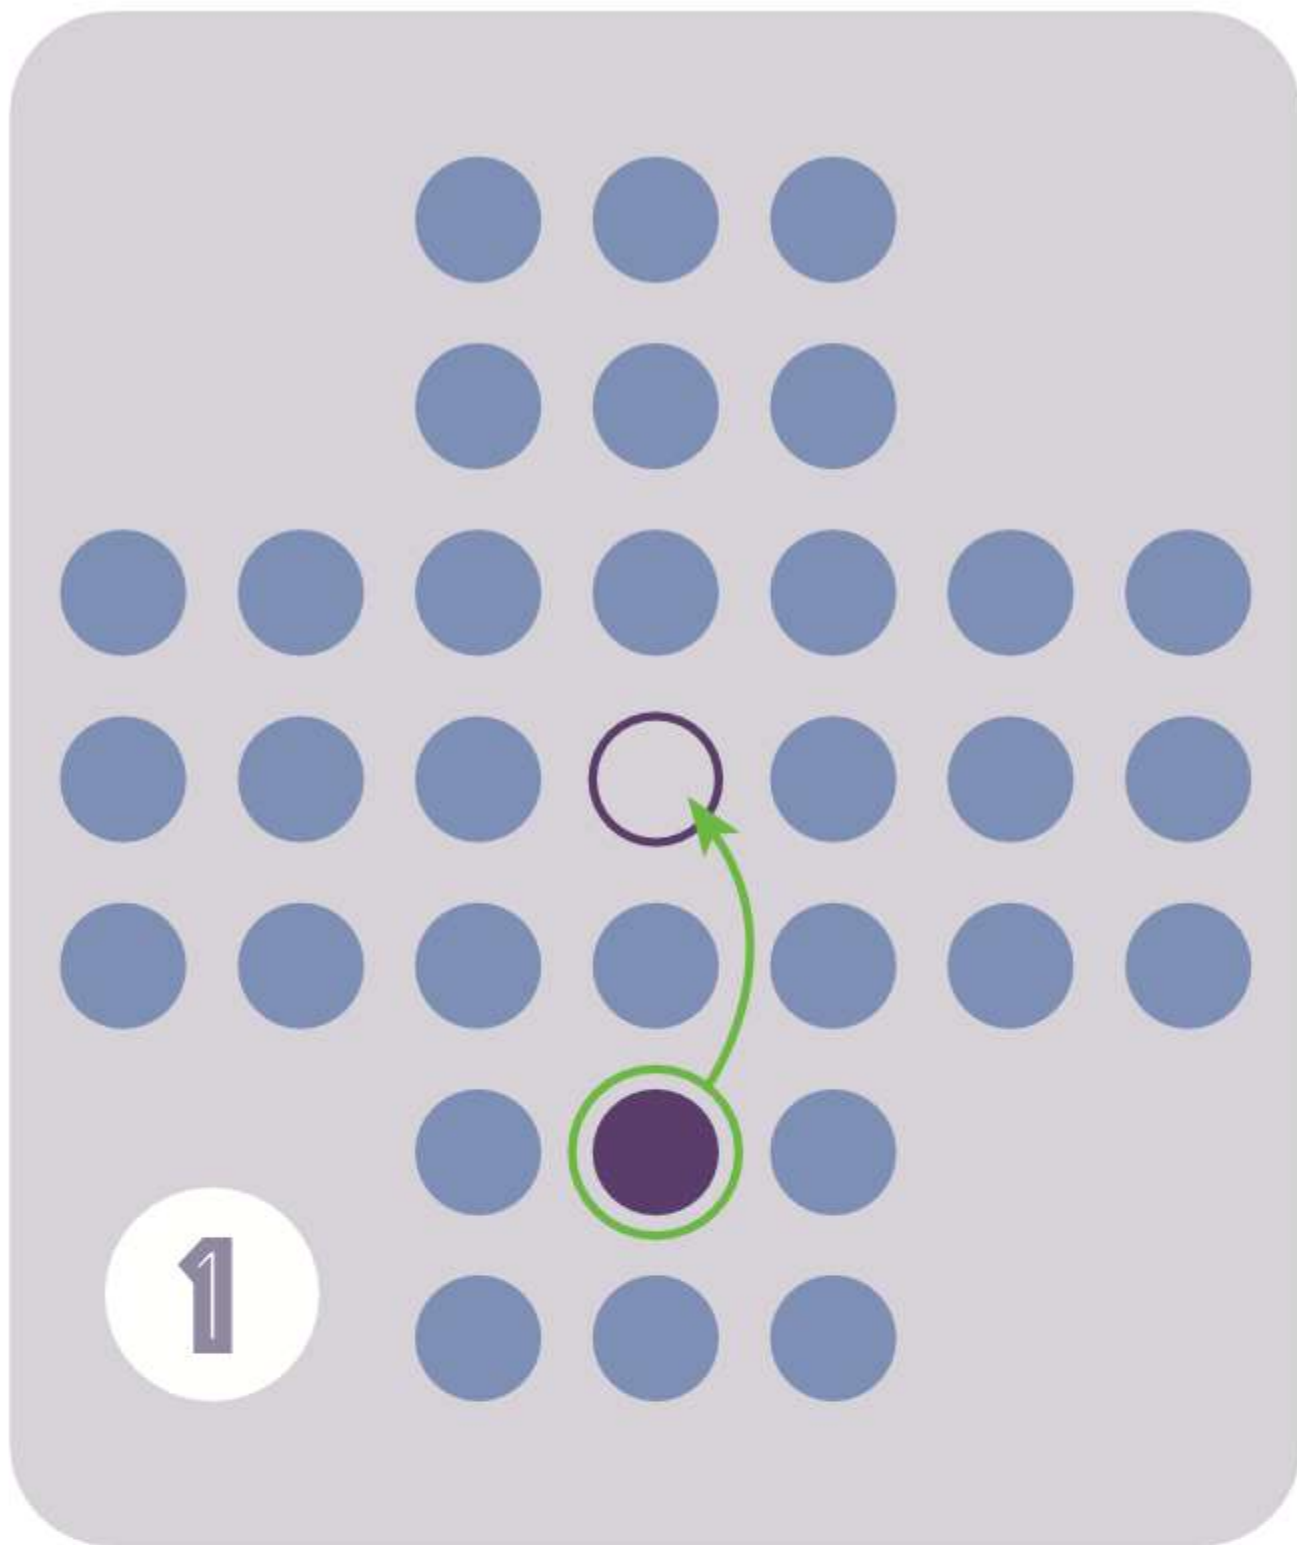

O bilă poate fi jucată de mai multe ori la rând.

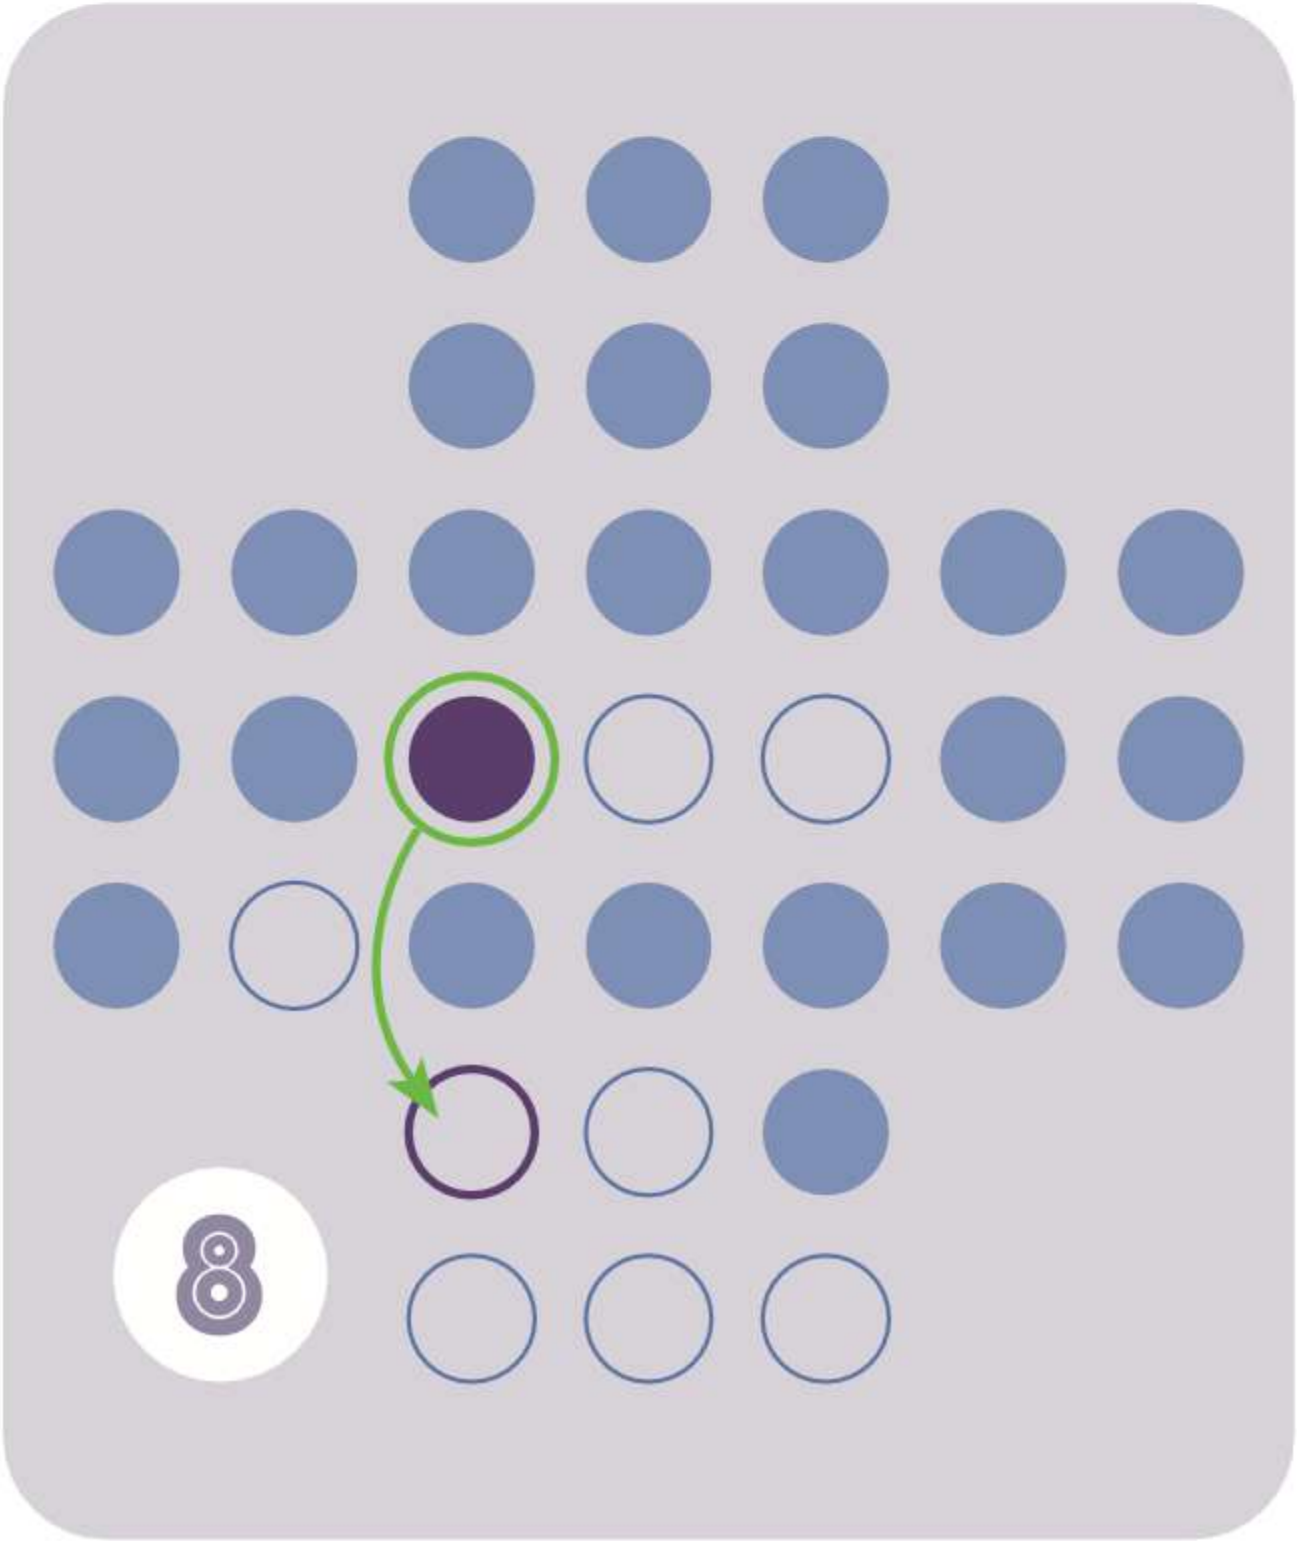

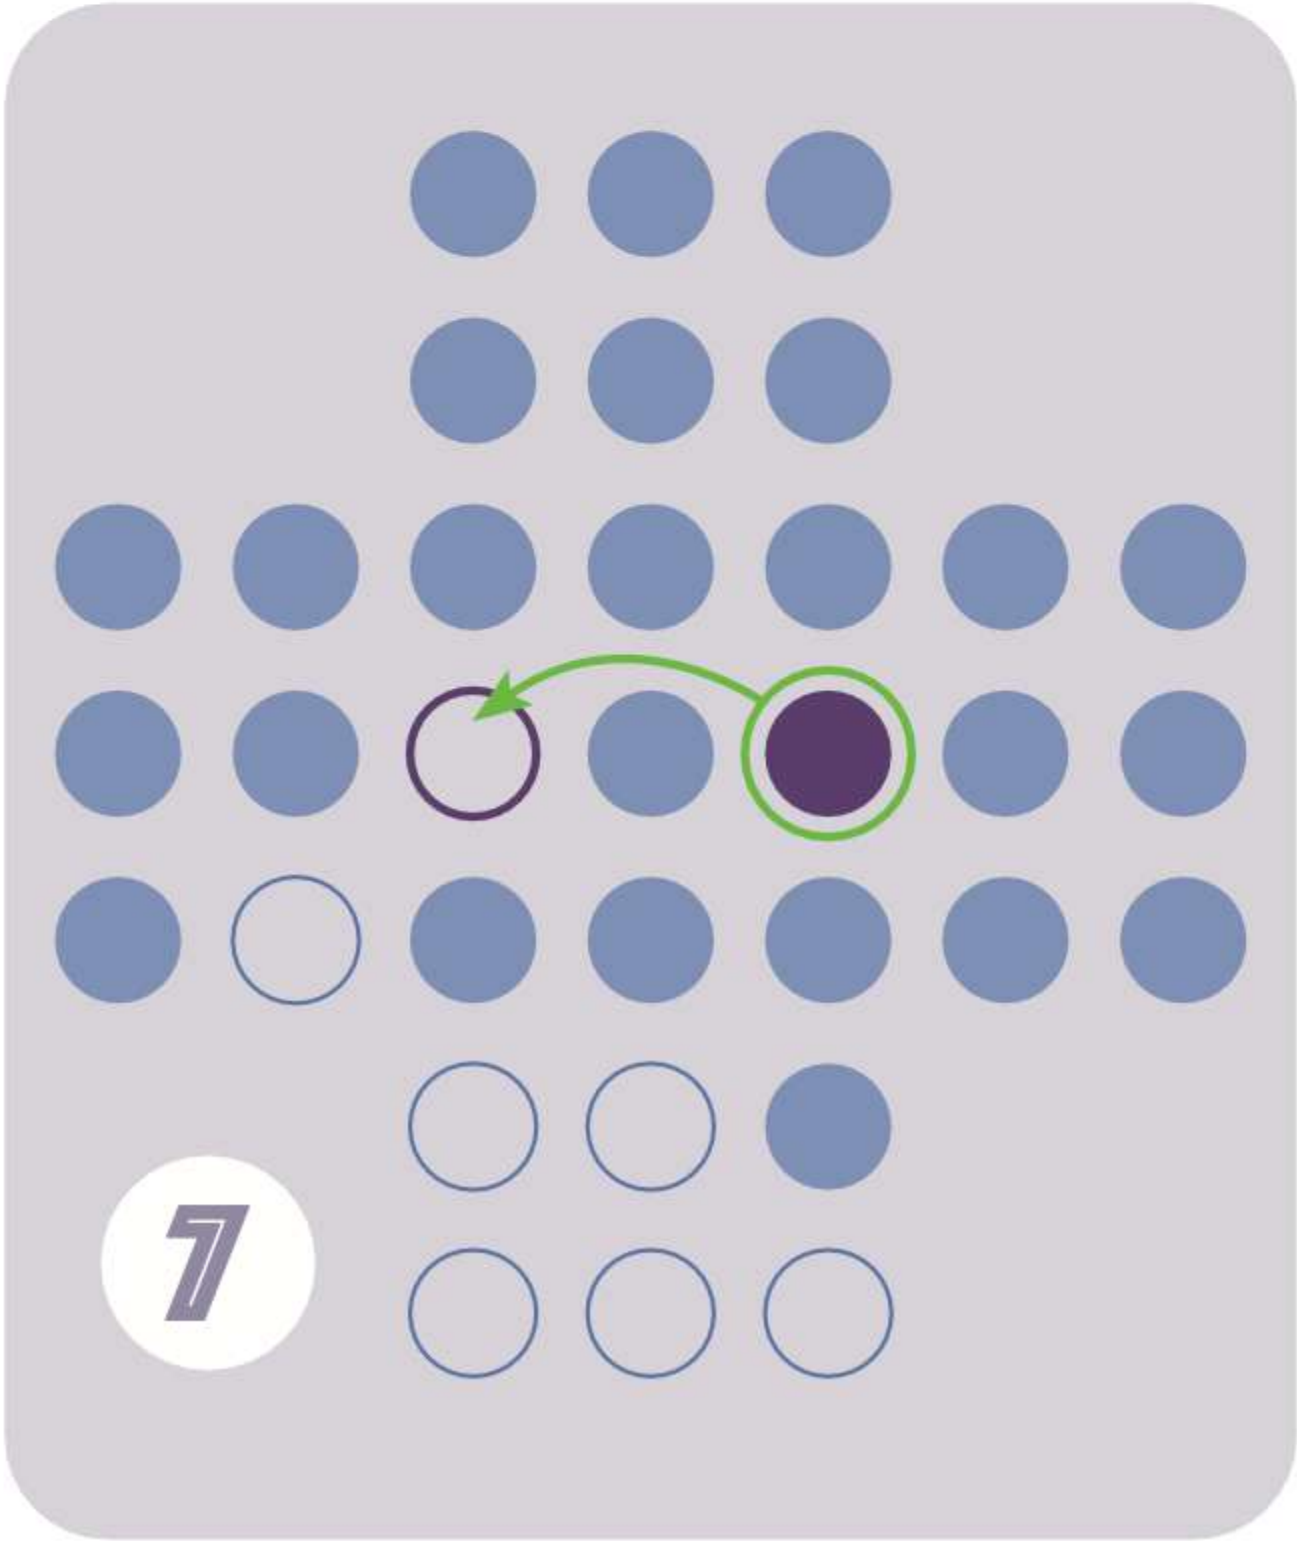

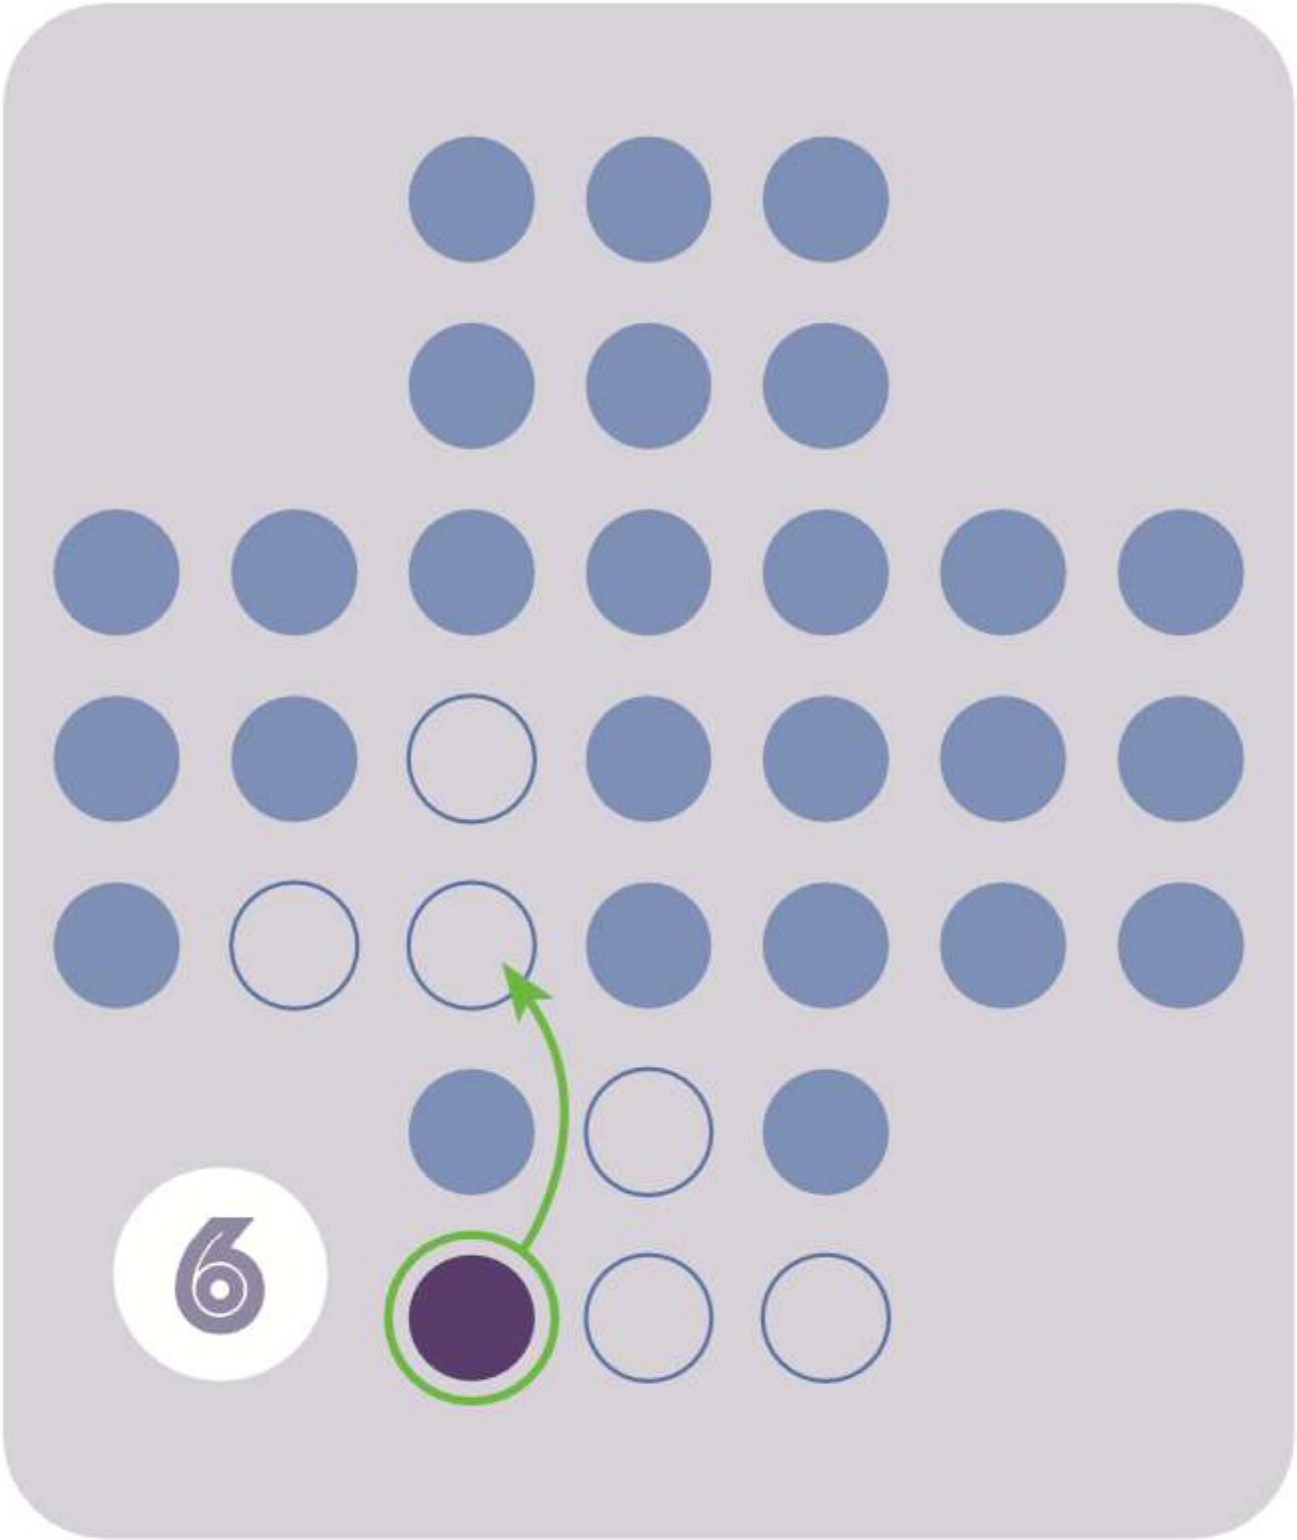

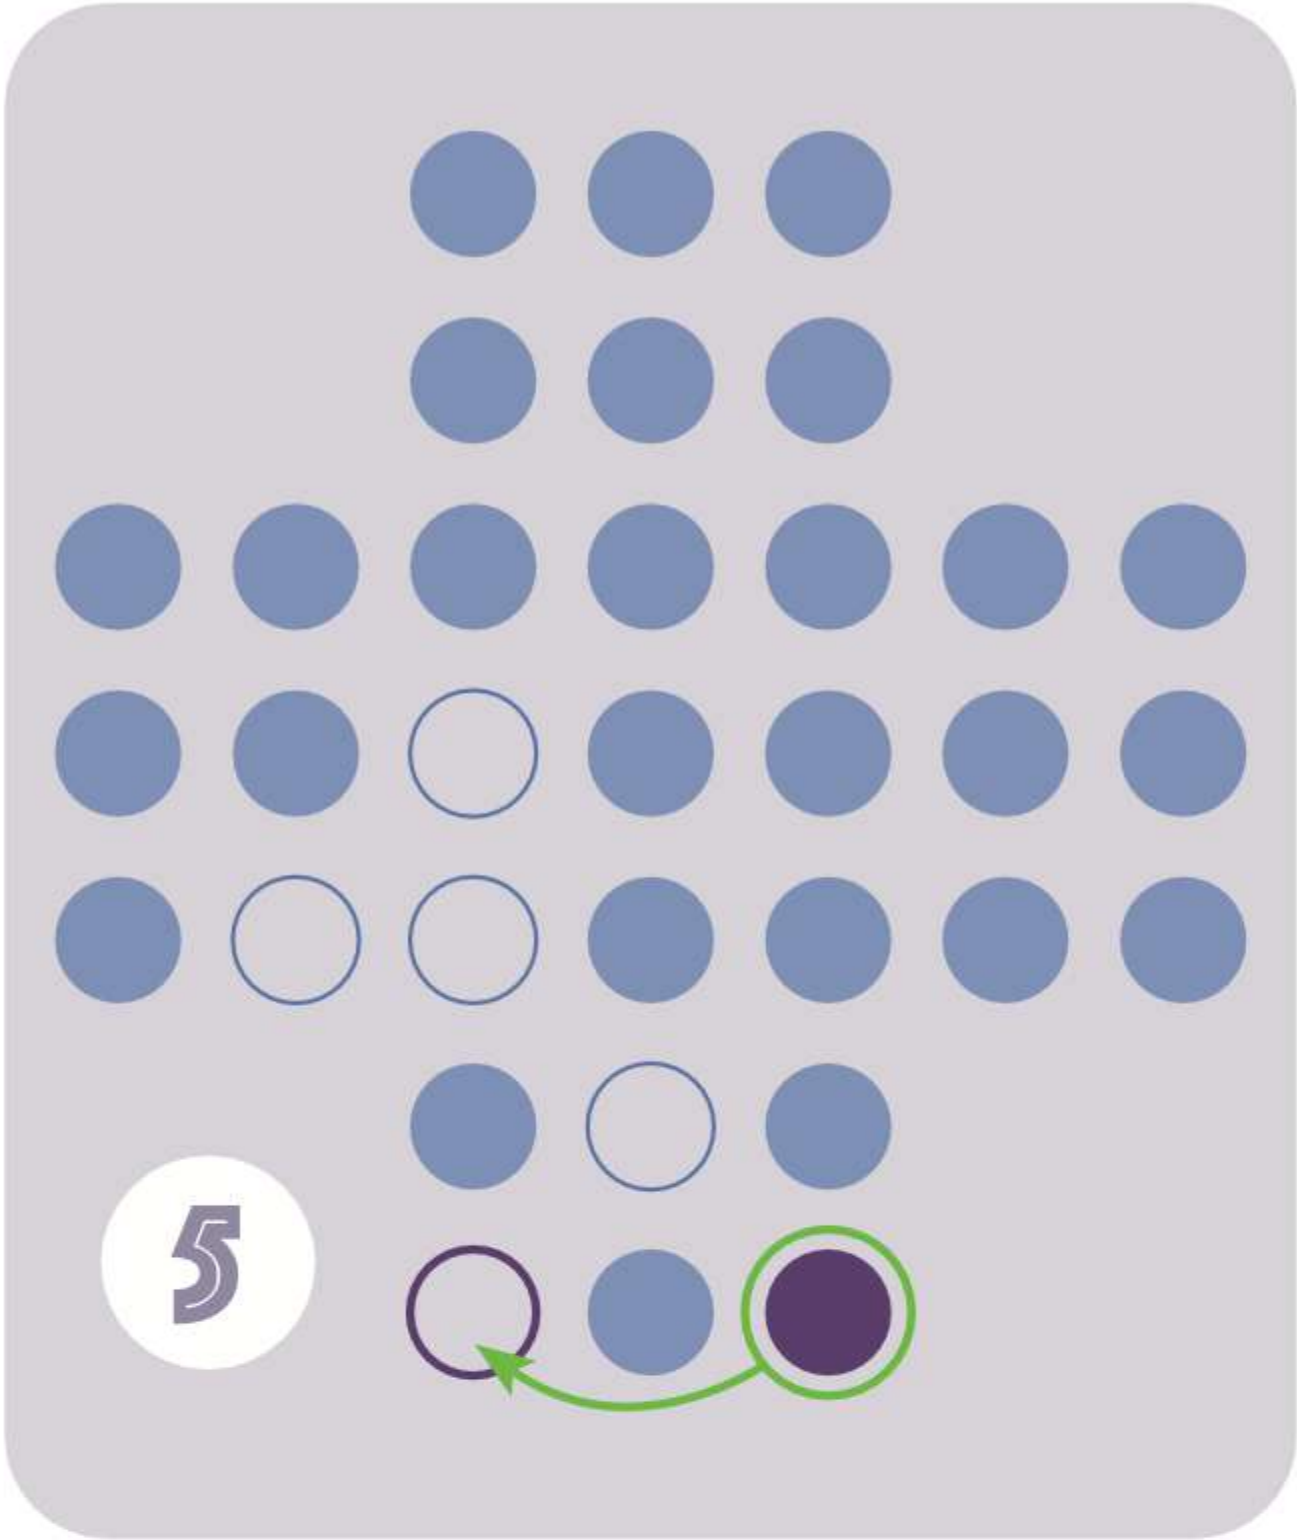

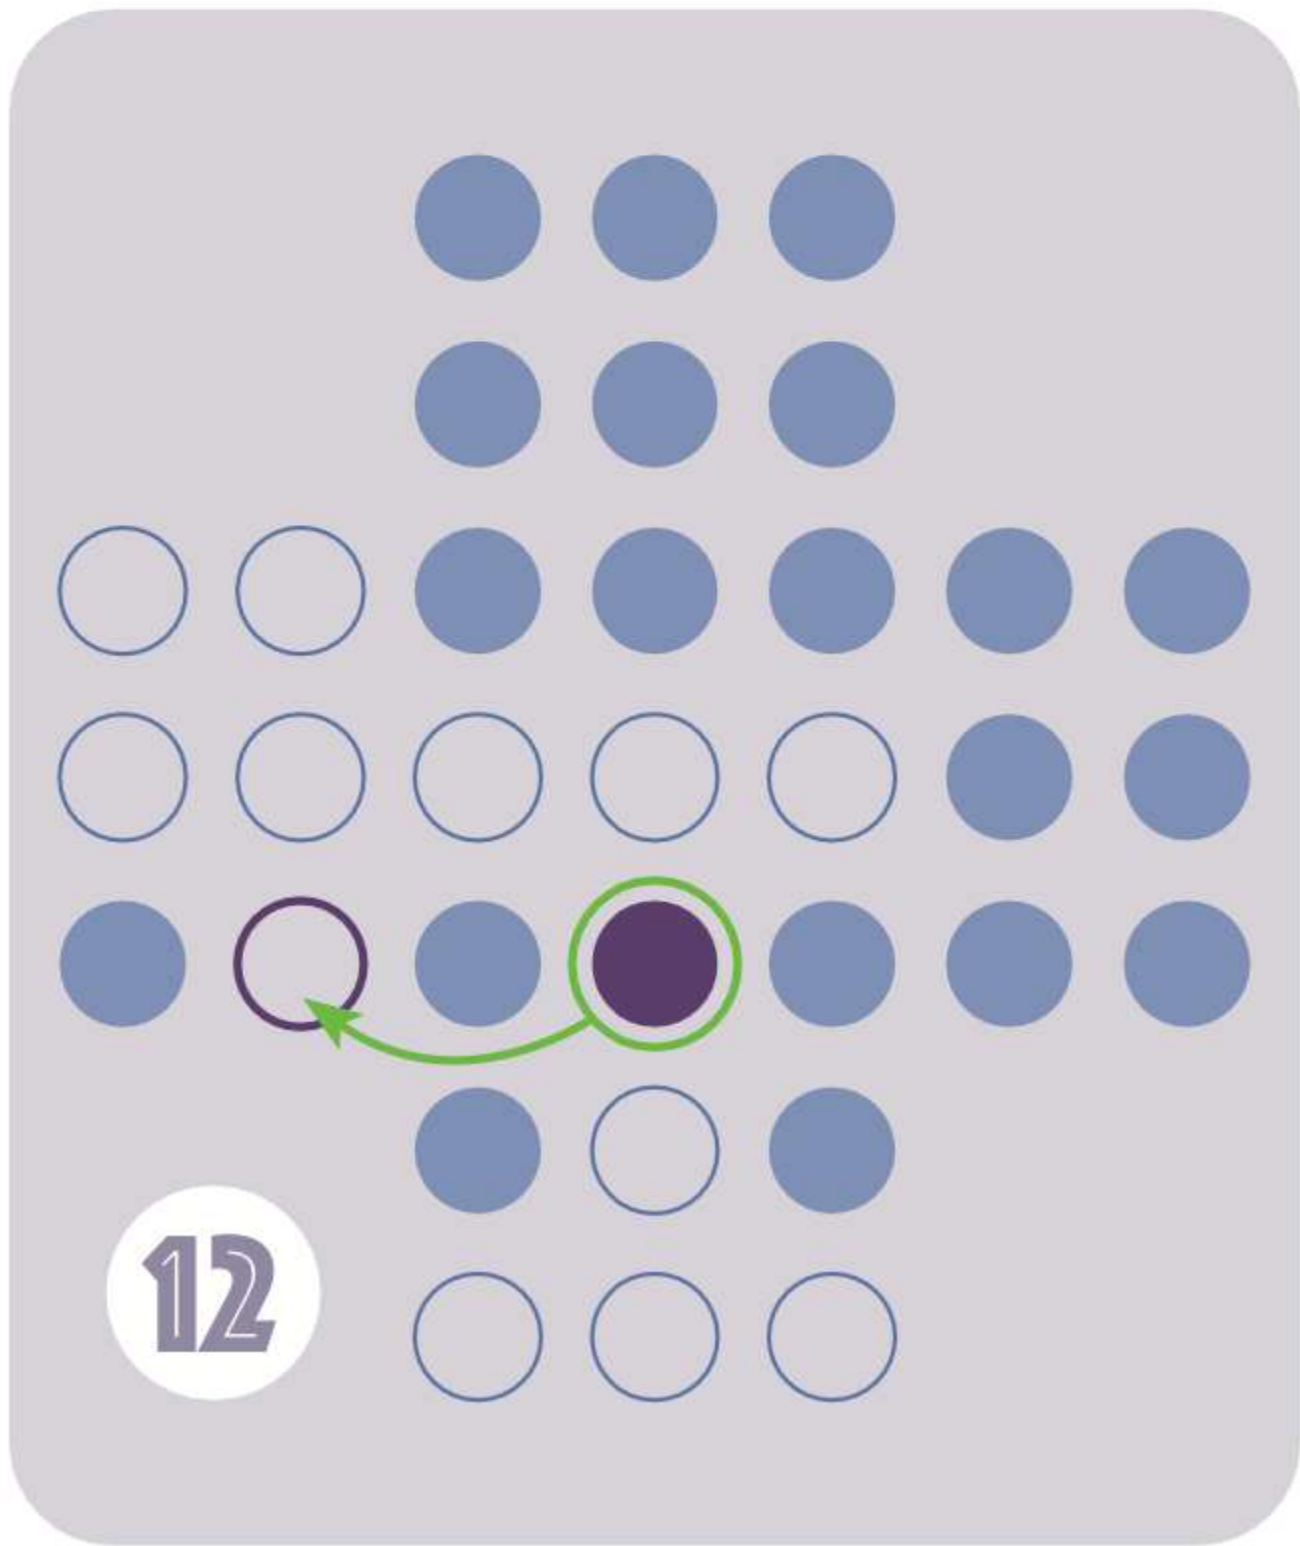

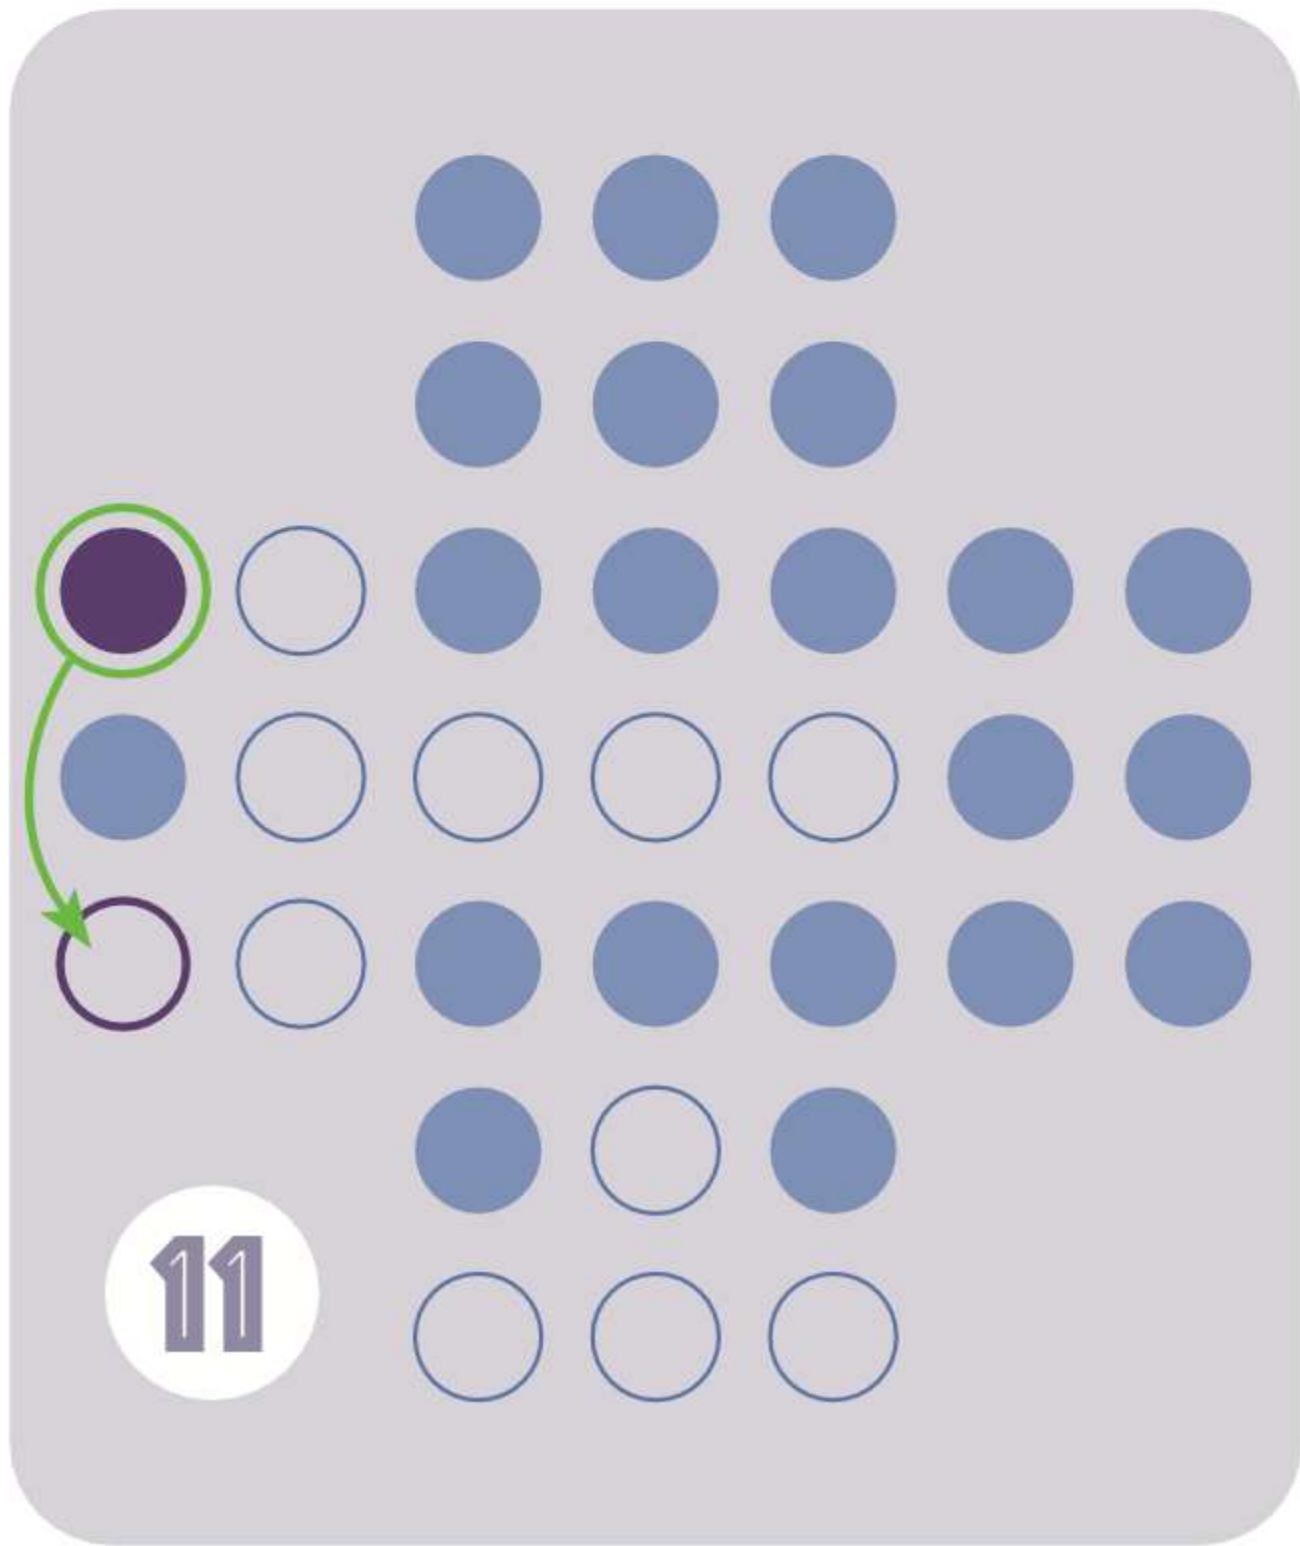

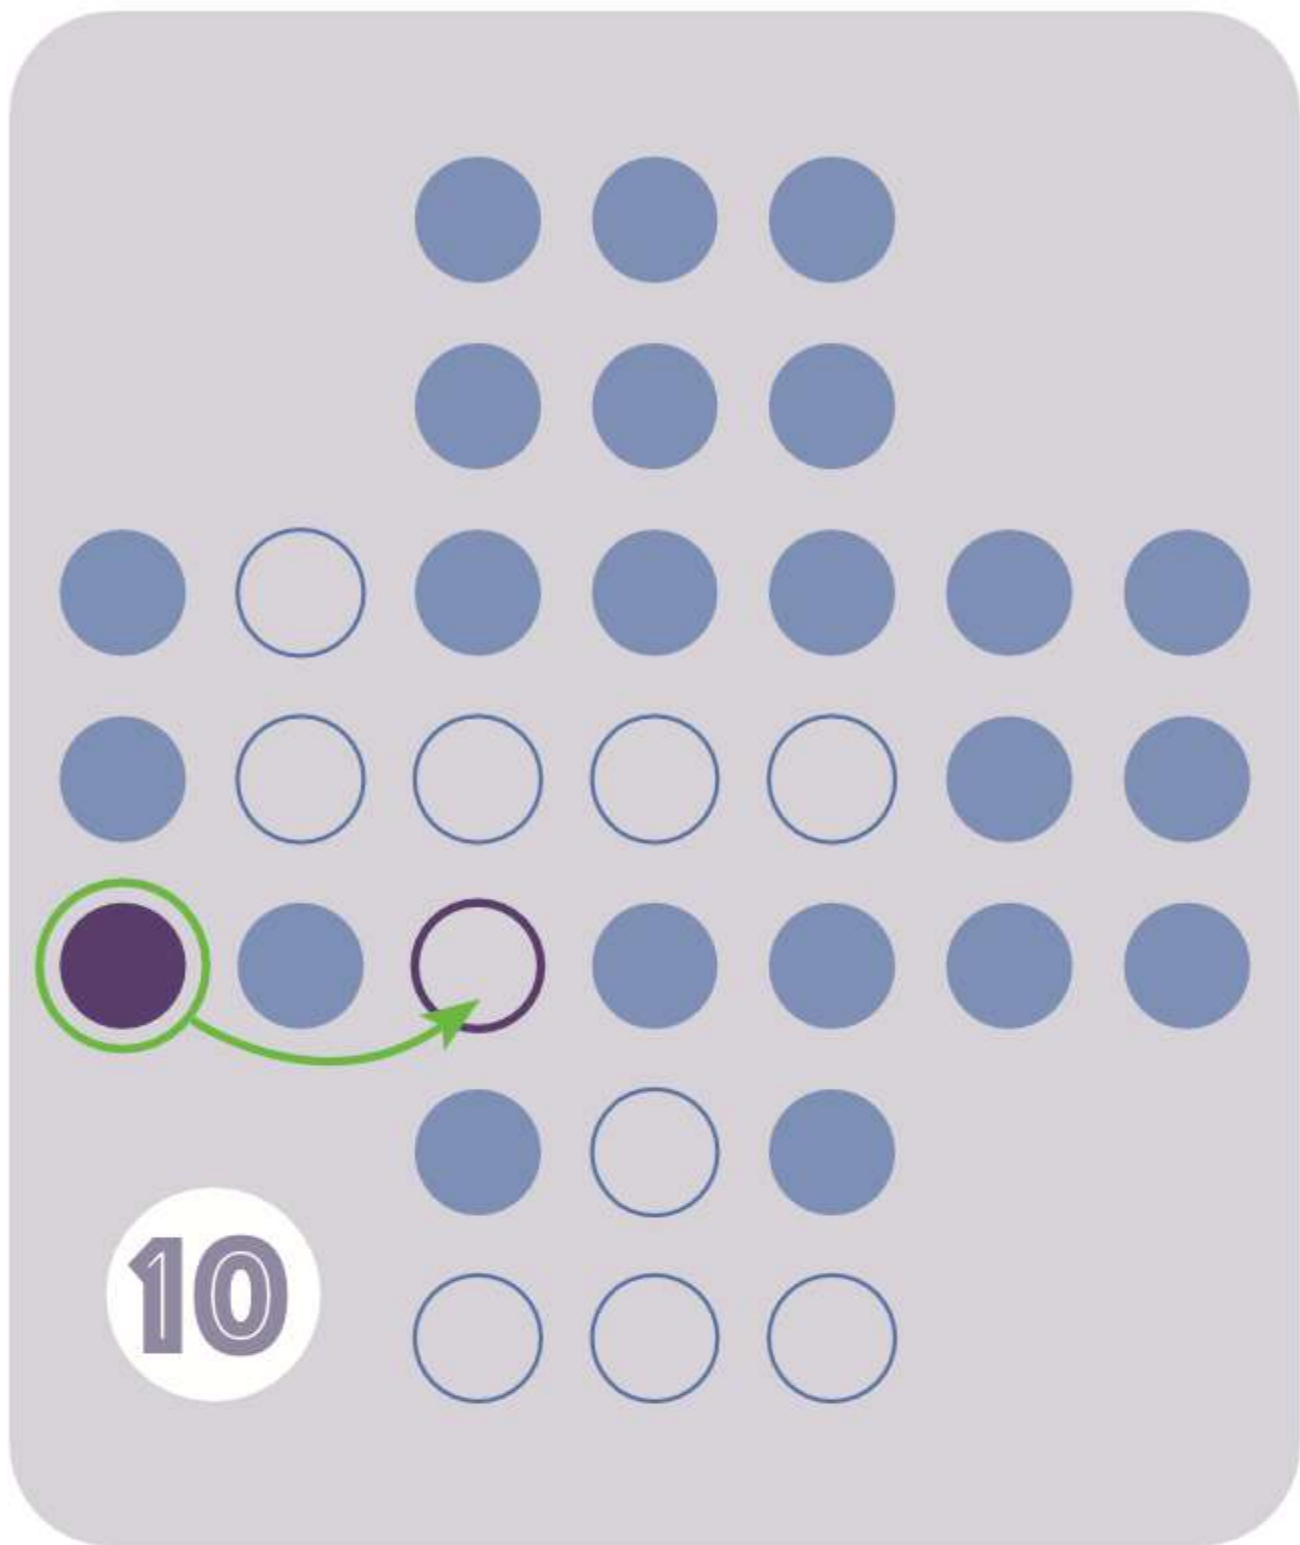

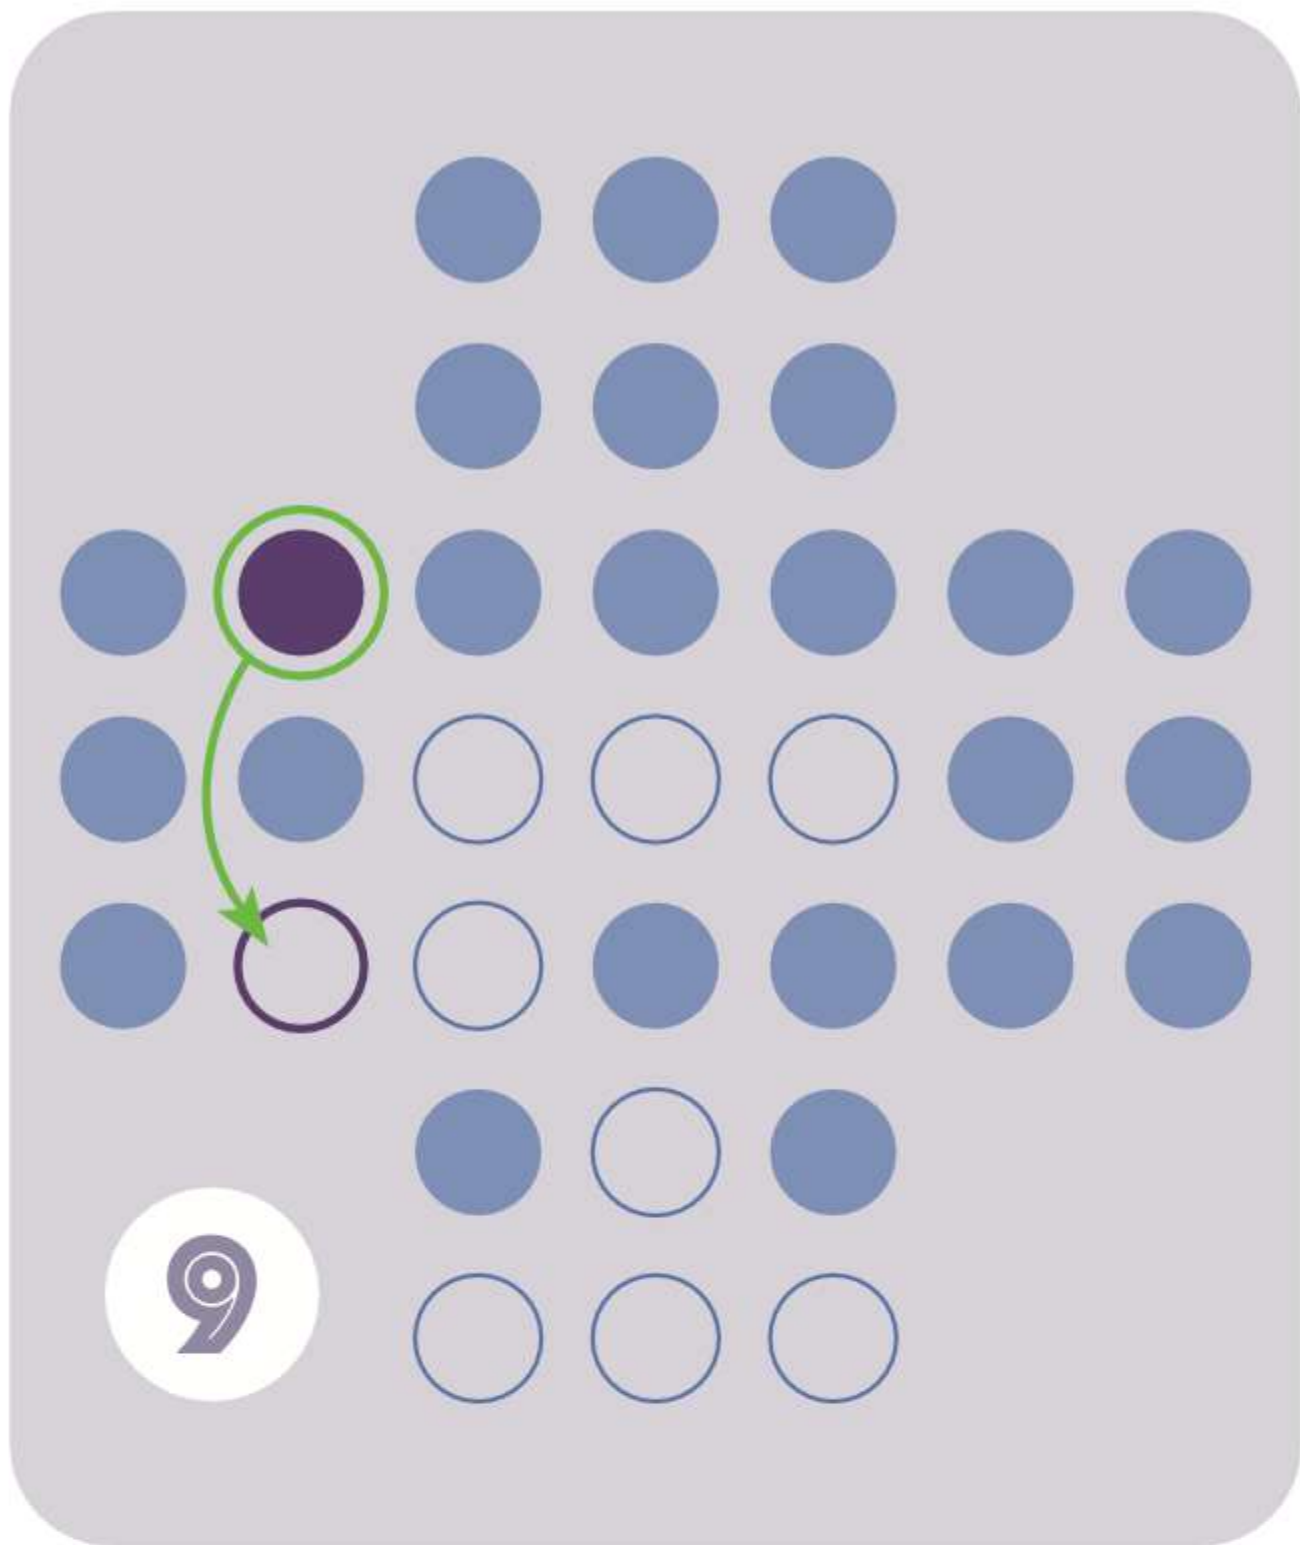

VARIATII:

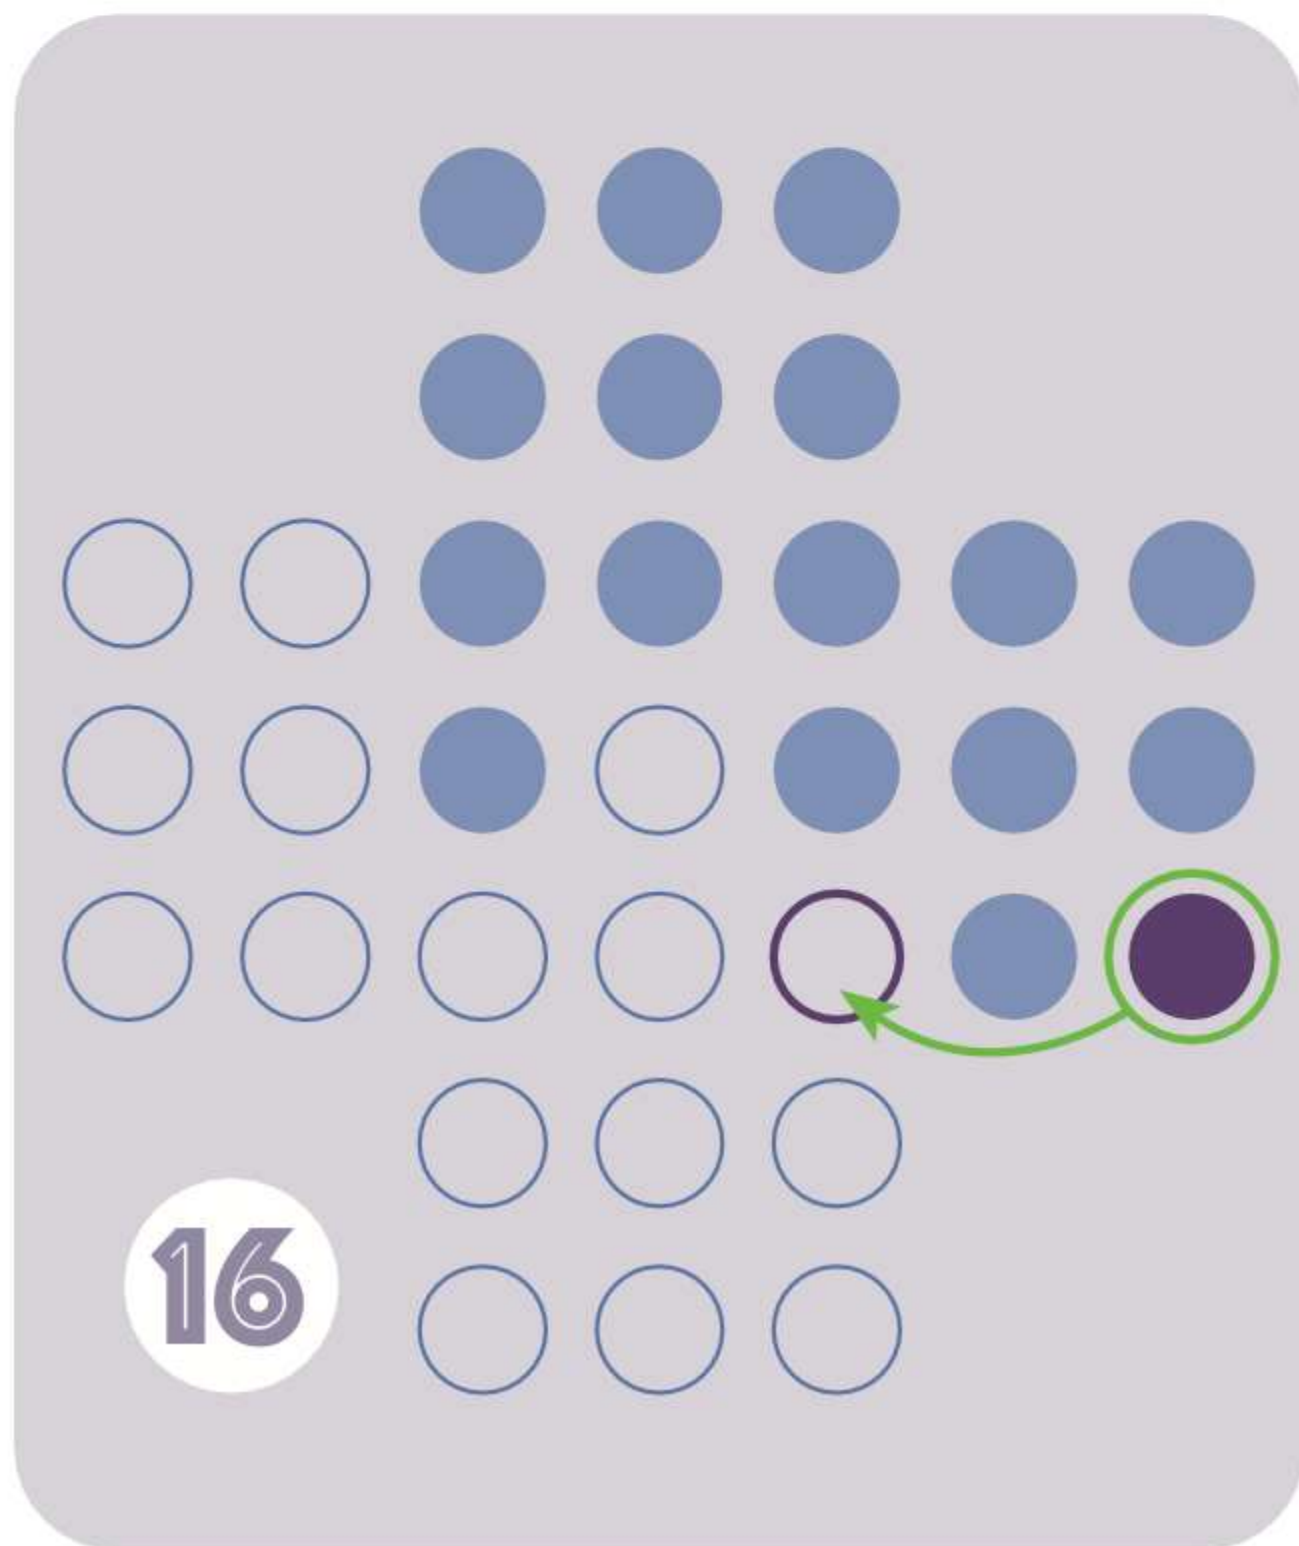

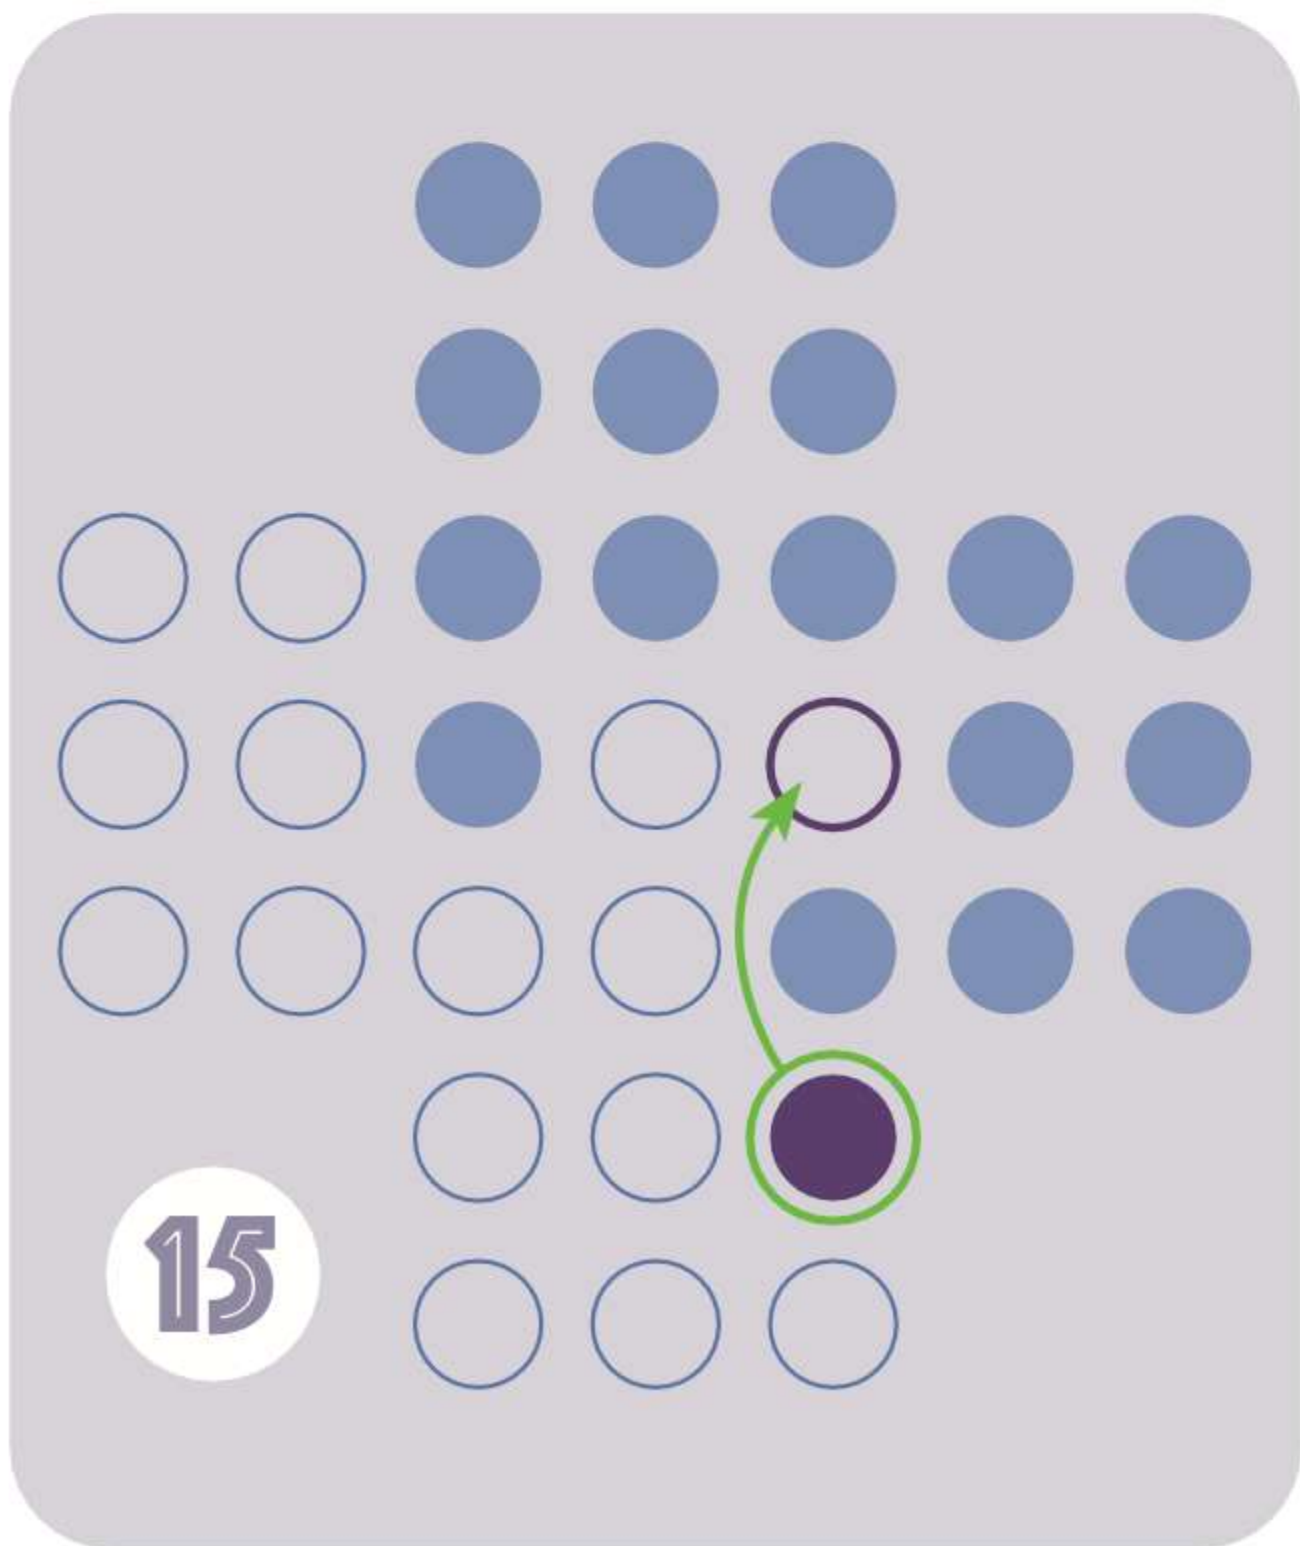

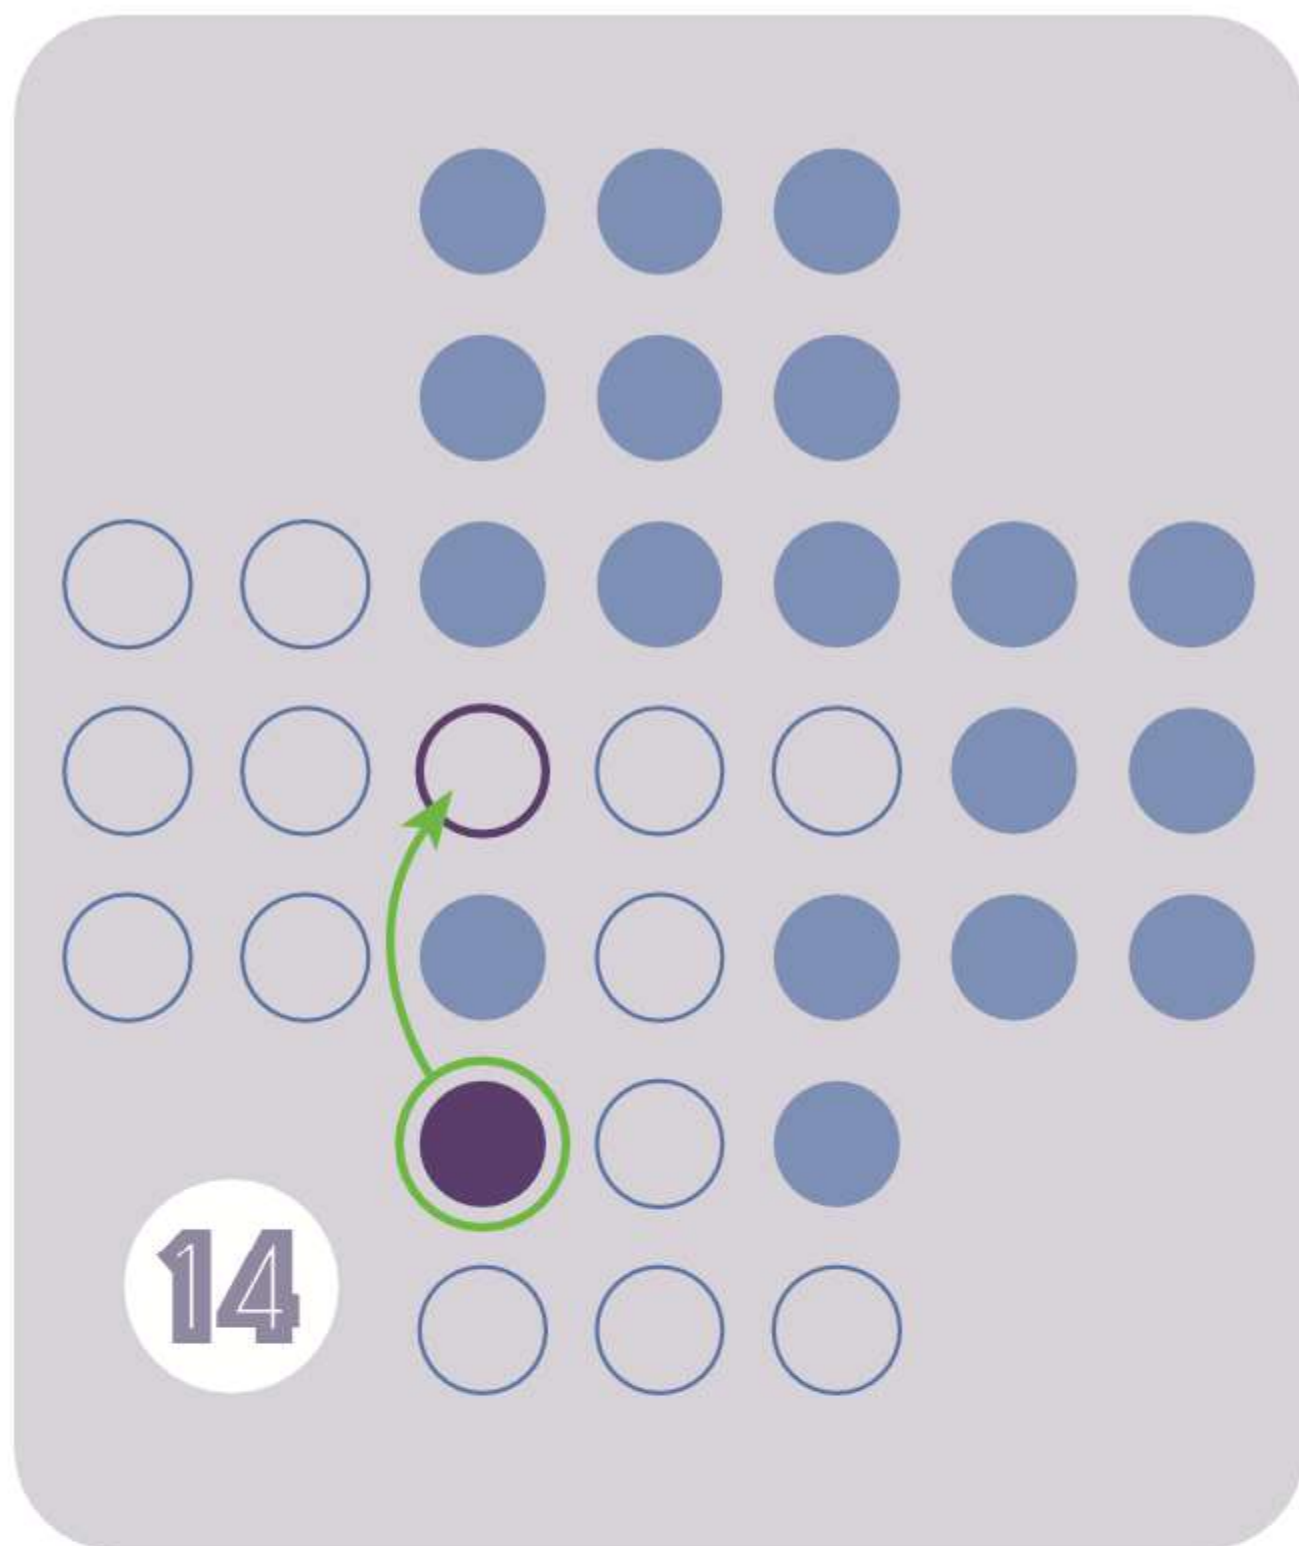

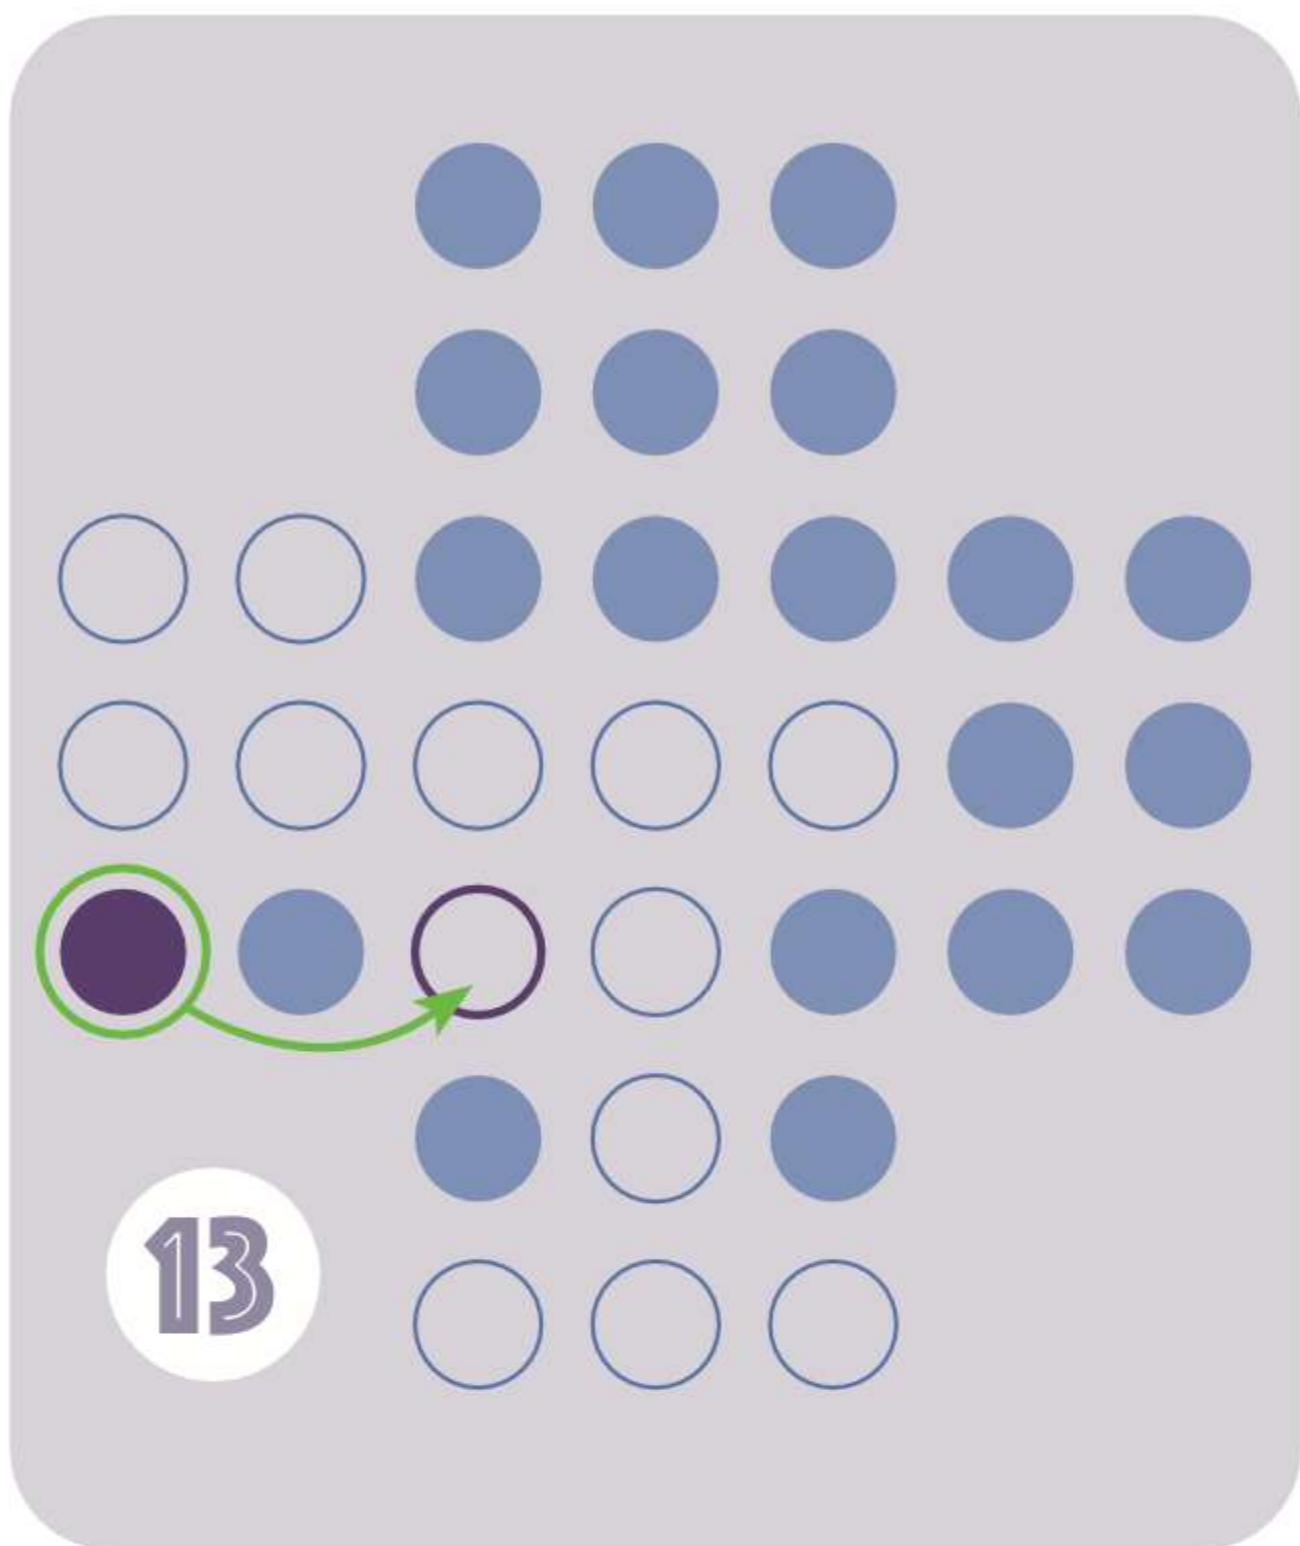

Încercați să lăsați altă gaură liberă la începutul jocului.
Terminați cu ultima bilă exact în centrul tablei.
