

## PRODUCT INFORMATION

The LMX installed linear range is ATEX, IECEx and UKEX certified for safe use in Zones 1 and 21 potentially explosive atmospheres. Ideal for illuminating Hazardous Area walkways, corridors, and long and large open areas. All products are IP66/67 rated, tough, reliable and ideal for indoor or outdoor use in new installations and for replacing existing fluorescent, or LED installations for improved performance and lower energy consumption.

Available in 2 versions, Forward Facing Array (FFA) models are ideal for illuminating larger areas and for when lights are mounted high up and out of operators' eyeline; Directional Linear Optics (DLO) versions offer market leading low glare performance and the ability to direct light exactly where it's needed with no light overspill or wasted light output.

## FEATURES & BENEFITS

### LIGHT OUTPUT/POWER

#### Forward Facing Array (FFA) models:

- Up to 5,258 lumens (LMX4S-F)

#### Directional Linear Optics (DLO) models:

- Up to 3,976 lumens (LMX4S-L)
- Directional light - light directed exactly where needed with no overspill and no wasted lumens
- Low glare - for worker's comfort and wellbeing

### CERTIFICATION/SPECIFICATION

- ATEX, IECEx and UKEX certified for gas Zone 1 and dust zone 21 T4 temperature class
- An IP66/67 rating means the LMX Linear is suitable for both indoor and outdoor use
- With all models having a lower ambient limit of - 50°C and high temperature versions up to 65°C being available, the LMX range is ideal for even the most extreme environments

### FEATURES

- Simple design ensures quick and easy installation
- Standard industry sizes allow easy retrofit of existing installations
- Four gland apertures (2x each end) to support through wiring arrangements
- Available as 110V and 230V versions
- The extruded aluminium body and strengthened glass ensure long life and resistance to damage
- Ultra long life LEDs - configured for 100,000+ hours life
- 5000k colour temperature
- The modular LED system allows easy, quick and efficient servicing, repair and replacement if necessary through easy access and rapid part replacement
- Advanced thermal management technology ensures a lifetime of 10 years+
- 5 year warranty
- IES files available upon request
