

CADmix II

Product specifications

Unique 2-in-1 solution for refreshing and mixing SLS powders

- Precise refreshing, quickly and effortlessly
- Functional and safe with intuitive control
- Compact and easy to handle
- Clean and automatic mixing

Refreshing

Saves work and time

one operation instead of three or more when using classic sieve

Ensures clean process

there is no need for repeated manipulation, the whole process is automatic

Mix perfectly

precisely prepared SLS powder in few minutes

Works completely safely

the whole process takes place in closed chamber with sensor for immediate stop

Mixing

For recycling materials

allows the use of waste printing materials - e.g. HP PA12 USED

Mixing your own mixtures

brings the possibility of mixing your own printing materials

Perfect mixing

precisely mixed mixture thanks to an automated process

Ensures the cleanliness of the process

no need for repeated handling, the entire process is automatic

PACKAGE DIMENSIONS

Height (mm):	950
Width (mm):	430
Depth (mm):	630
Mass (kg):	50

DIMENSIONS OF THE MACHINE

Height (mm):	727
Width (mm):	416
Depth (mm):	567
Mass (kg):	43
Input power (W):	400
Tension (V):	230

A PART OF THE PACKAGE

SLS 3D print,
that you
will enjoy!
