

Industrial Batteries / Motive Power

Classic EPzS

Technical features and benefits:

- > Vented, robust lead acid battery technology with liquid electrolyte
- > Proven tubular plate technology for highest performance levels and reliability
- > Long cycle life and high energy density
- > Fully insulated, bolted terminals and connectors
- > Leak proof terminal bushing
- > Manufactured in accordance with DIN EN ISO 9001
- > DIN cells according to IEC 60254-2 series L
- > Environmental management in accordance with DIN EN ISO 14001
- > Option: Explosion-proof version (ATEX)
- > Recyclable

»**Economical. Robust. Reliable**«
