- Security visibility, implementation and continuity
- The peace of mind to focus on core activities

Intelligent simplicity

With a large touchscreen operation panel, smartphone style user interface and a display that users can customise with apps from Konica Minolta Marketplace, i-Series is intelligently simple.

Next generation security

The next generation bizhub i-Series comes with the highest security standards built in.

With our bizhub SECURE services, we tailor the security settings to your needs, so your data is fully protected. And with integrated anti-virus software, it ensures no virus can harm your business.

i-SERIES IS INTUITIVE

RETHINK IT

Inspired by the way people interact with tech, we've completely redesigned the user experience.

Designed for people

The stylish new bizhub i-Series looks at home in today's office environment, with contemporary touches like a floating operation panel, rounded edges and LED status indicators.

With a 24° to 90° tilt angle, the large 10.1" tablet style touch panel provides convenient operation for all users, especially those in a wheelchair.

Putting users first

The new i-Series offers a market leading and intuitive smartphone style experience.

In fact, the user experience is so familiar there's practically no learning curve and users can customise* their screen in the same way as their mobile device.

Most used functions have an identical list-view and are directly visible without scrolling or searching. And as both our A3 and A4 models operate in precisely the same way, users can be more productive whichever they're working with.

The waiting is over

To boost workflow and cut out waiting time, the new i-Series is our fastest ever range. In fact, thanks to its brand new Quad Core Central Processing Unit, it's four times quicker than our previous bizhub series.

The new controller integrates all processes and distributes tasks more effectively within the Central Processing Unit. As a result, the user experience is smoother and quicker and there is no waiting time while operating i-Series.
