## HOW TO PUT ON THE RUBBER RING :

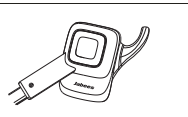

\*There are 2 pairs of rubber rings included in the packaging: one is with tail & one is without tail.

Pick one pair you feel more comfortable with and do the assembly as below illustration:

### 1. Pick the rubber ring with tail:

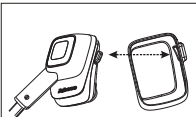

a. Find out the protruding part on the side of the headphone and the concave on the inner side of the rubber ring.

b. Put the rubber ring on the headphone with the protruding part into the corresponding concave.

### 2. Pick the rubber ring without tail:

a. Find out the protruding part on the side of the headphone and the concave on the inner side of the rubber ring.

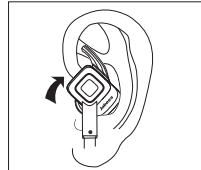

b. Put the rubber ring on the headphone with the protruding part into the corresponding concave.

## HOW TO WEAR BEARING CORRECTLY AND GET SECURE FIT

### 1. Pick the rubber ring with tail:

a. Place the bottom part of the headphones inside the antitragus, and then insert the earbuds into the ears.

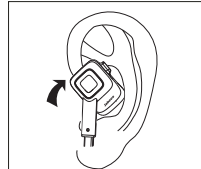

b. Rotate the headphones clockwise until the tail of the rubber rings lock in the ears.

### 2. Pick the rubber ring without tail:

a. Place the bottom part of the headphones inside the antitragus, and then insert the earbuds into the ears.

b. Rotate the headphones clockwise until the headphones lock in your ears securely and comfortably.
