

# **PROSEPT**<sup>®</sup> Gel – The fast-acting gel with vitamin E, emollients, and moisturizers for a gentle yet highly effective hand disinfection.

#### PROSEPT® Gel

PROSEPT® Gel is a ready-to-use, hydroalcoholic gel that was specially formulated for hygienic and surgical hand and forearm disinfection. The optimized ratio of the different alcohols provides a broad effective spectrum. A selection of premium skincare and protective agents retains the moisture of the skin and helps to maintain the skin in a healthy condition. PROSEPT® Gel prevents drying of the skin and leaves the hands feeling silky even after frequent use. This hand disinfectant is free of dyes, and fragrances and therefore, the risk for allergies or skin irritation is low. PROSEPT® Gel is of low viscosity and non-sticky for an easy and pleasant application.

# **Your Benefits**

#### ► Broad effective spectrum

Active against bacteria, mycobacteria, fungi, and viruses (including norovirus) within 60 seconds.

# ► Non-sticky formulation

The non-sticky formulation leaves no residue on your hands or gloves.

# ► Contains anti-aging ingredients

The hand disinfectant contains anti-aging ingredients, moisturizers, emollients, skin protection agents, vitamins, and soothing agents for maximum skin protection.

# **Effective Spectrum / Exposure Times**

Bactericidal	15 seconds

OD-081145	5 litre canister

# **Application Area**

Hygienic hand disinfection EN 1500	30 seconds
Surgical hand disinfection EN 12791	90 seconds

<sup>^</sup>Tested under low organic load / \*Tested under high organic load / #Tested under low and high organic load

#### Easy to Use

- Remove watches, rings, and other jewellery before applying the disinfectant.
- Apply required amount to dry and clean hands. For the hygienic hand disinfection: rub 3 ml for 30 seconds on hands and nails. For the surgical hand disinfection: rub twice 5 ml for 90 seconds on hands, nails, and forearms.
- ► Rub hands together in accordance with the 6 step technique for hand disinfection (EN 1500) and follow contact times.

#### Time of Application

- Before work preparation.
- ► Before and after every treatment.
- After a work break.
- ▶ Before putting on and after removing gloves.
- After contact with potentially infectious material or contaminated devices, instruments, and surfaces.

# **Important Advice**

- Wearing gloves is never a substitute for hand disinfection. Even when wearing gloves, the hands must first be disinfected.
- Never wash or apply lotion to hands directly before or after disinfection. This can significantly lower the effectiveness of the disinfection.
- The hands must be completely dry before applying disinfectant. Otherwise, the disinfectant may be diluted and thereby, lose its effectiveness.
- ► Do not wear any jewellery (e.g. rings, wristwatch) on the hands or forearms.
- Fingernails should be kept as short as possible and should not extend beyond the fingertips. Fake nails and nail polish should never be worn.

# Relevant Physical and Chemical Properties

Colour:	Colourless
Physical state:	Clear, slightly viscous gel
Scent:	Of alcohol
pH-value:	Neutral
pH-value in aqueous solution:	Not applicable (ready-to-use solution)
Flammability:	The product is highly flammable
Relative density (g/cm³):	0.85

#### Composition

100 g contains 52.8 g ethanol, 19 g 1-propanol, 2.8 g isopropanol, moisturizers, emollients, vitamin E acetate, panthenol, bisabolol and gelling agent.

#### **Shelf Life**

Unopened container: 36 months

The shelf life of the product is subject to correct storage and transportation conditions and the use of original containers. Keep containers tightly closed.

#### Danger

H225 Highly flammable liquid and vapour. H318 Causes serious eye damage. H336 May cause drowsiness or dizziness. P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P233 Keep container tightly closed. P261 Avoid breathing fume/mist/vapours/spray. P280 Wear protective gloves/protection clothing/eye protection/face protection. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P501 Dispose of contents/container in accordance with local and national regulations.
