Re: Declaration of Product Model Correspondence — OEM/Private Label Naming

LETTER OF DECLARATION

To Whom It May Concern,

We, Shenzhen LUHLUH Tech Co., Ltd., a manufacturer of dental CAD/CAM equipment based in Shenzhen, China, hereby declare that certain products supplied under our OEM/private-label cooperation with our overseas partner are re-labeled under alternative model names for branding purposes only. The underlying product — design, specifications, and function — remains unchanged from the version certified under our CE certification.

The correspondence is as follows:

OEM / Order Model No.	Corresponding CE Certificate Model No.	Remarks
C5	W53	Same product; model name changed for OEM branding only
X5	52W	Same product; model name changed for OEM branding only

We confirm no modification has been made to the products' structure, components, or performance as a result of this naming change, and the applicable CE certificate remains valid regardless of the commercial model name used.

This declaration is issued in good faith to assist customs authorities in verifying the compliance and conformity of the shipped goods with the relevant CE certification, for the purpose of customs clearance.

Should any further information, technical documentation, or clarification be required, please do not hesitate to contact us using the details below.

Sincerely,

Shenzhen LUHLUH Tech Co., Ltd. (LUHTEK)
